About the job

Job summary

The DVSA are in the midst of an incredibly exciting digital transformation. This role will form a part of a new, growing, team helping change the direction for the agency and contributing to our 2030 vision.

Our Data Strategy has just been refreshed and sets the direction for making the Agency an evidence based and data driven organisation. Our roadmap sets out an ambitious and exciting programme of works covering the next five years. You will work on a wide range of activities from setting the foundations by establishing and delivering our data catalogue and data models through to setting up the Agency to unleash the potential of AI.

Our **Digital-first vision** is supported by a clear strategy which allows our staff to develop and grow.

There's never been a better time to join the DVSA.

If you want to find out more about this role, get tips on the application or ask the hiring manager any questions, join us for a virtual information session on 16th January at 17:30. Click [here](#) to register.

Job description

Responsibilities include but are not limited to:

Assisting in the delivery of the DVSA data strategy and roadmap and developing data governance and data management processes.

Defining the data architecture framework, models, standards, patterns and principles to be used across DVSA.

Developing a data catalogue to document data used across DVSA.

Translating service and business requirements into documented data requirements and flows across DVSA

Develop data measurement initiatives for data condition and remediation.

Demonstrate leadership by providing influence, direction and guidance to staff to support the delivery of objectives. Establishes a strong direction and a persuasive future vision.

For further information please see the attached Role Profile.

Additional Information

This role can be based in Bristol, Swansea, Nottingham, Newcastle, Oldham or Birmingham or Leeds your presence at one of these locations will form part of the working arrangements agreed with you. We operate a hybrid working model giving you greater flexibility about where and when you work. Our expectation is that you will spend a minimum 60% of your time at your base location. Visits to other DVSA sites or work locations count towards this.

Government Digital and Data Profession Pay Framework

This role is part of the [Government Digital and Data profession](#) and utilises an enhanced Capability Based Pay Framework which provides access to a Digital and Data allowance.

The base pay is £54,857. In addition to this, the role includes a Digital and Data allowance of up to £25,543.

The value of allowance awarded will be based on an assessment of your skills and experience as demonstrated through the selection process.

[Here are more details on the pay framework.](#)

Person specification

We are looking for individuals who can:

- Work within a strategic context and communicate how activities meet strategic goals

- Bridge the gap between stakeholders and technical data teams, effectively communicating complex concepts in plain language.

- Understand the impact of emerging trends on the organisation in data tools, analysis techniques and data usage

Display strong technical expertise in data architecture concepts (e.g. model management, meta-data management, data governance).

Please view the attached role profile for an in depth view of the post.

There may be an element of travel associated with this role to other DVSA offices, with some infrequent overnight stays.

Please take note that DVSA does not hold a UK Visa & Immigration (UKVI) Skilled Worker License sponsor and are unable to sponsor any individuals for Skilled Worker Sponsorship.
