Job summary

Your Future Starts here

Student Loans Company is a non-profit making Government-owned organisation to provide loans and grants to students in universities and colleges in the UK. Since 1989, we have enabled our customers to invest in their futures by delivering secure, accurate and efficient assessment, payment and repayment services.

Our Values

Culture is at the heart of everything we do at SLC and we are guided by our five values which help make SLC a great place to work:

Honesty: We act with integrity and transparency, sharing information openly and addressing challenges with courage.

Empowerment: We enable people to take initiative, make impactful decisions, and continuously learn and grow.

Accountability: We deliver on commitments, own our successes and mistakes, and strive for quality outcomes.

Respect: We value diverse perspectives, actively listen, and create an inclusive environment where everyone belongs.

Trust: We collaborate across teams, build dependable relationships, and work as one to deliver for our customers.

These values are more than words they guide our decisions, shape our collaborations, and strengthen our impact on the students we serve.

Job description

About the role

This is a fantastic opportunity to work in a fast-paced, collaborative environment where the focus is to deliver progress, not perfection and where

dedication, innovation, embracing curiosity and teamwork underpin everything we do.

Capacity Optimisation are responsible for Forecasting, Scheduling, Real Time Management and Workload Management of Student Finance Advisors/ Officers across front and back-office Operations directorate, utilising IEX Workforce Management (WFM) solution alongside Avaya CMS for call routing, OPX and Salesforce for processing work routing, and Salesforce for self-serve/ Live chat routing.

You will support the delivery of key projects and initiatives within the Operational Optimisation, Enablement, and Knowledge division. As part of a 24-month rotational programme, you will gain exposure to critical business activities while developing core skills aligned to real-time management, scheduling, forecasting and work loading responsibilities. Through structured learning modules and on-the-job experience, you will build technical knowledge, strengthen professional capabilities, and contribute to achieving business objectives.

You will manage on-the-day performance including workload assignment, create and maintain schedules, and forecast future demand to enable consistent and efficient service for customers. You will also have exposure to Enablement/Knowledge responsibilities which support the main capacity optimisation responsibilities.

You should bring fresh thinking as you rotate through the individual departments and work closely with experienced colleagues, receiving mentorship, and actively participating in projects that drive value for the organisation.
