About the job

Job summary

You must have completed the second year of a relevant (IT-related) degree programme, by the start date September 2025 and are looking for a placement year in industry, before finishing your degree.

At HM Land Registry you ll be working as part of our Software Development Practice, a 100-strong community of developers embedded as part of dozens of teams, with a focus on continuous learning, collaboration and career advancement.

It's an exciting time to join us as we continue on a major digital transformation programme. Our existing software systems form part of the critical national infrastructure, safeguarding land and property ownership valued at £7 trillion, enabling over £1 trillion worth of personal and commercial lending to be secured against property across England and Wales.

Job description

You will be joining HM Land Registry within our Transformation and Technology Directorate.

A Junior Software Developer learns on the job by delivering software components. In this role you will:

  develop skills while working under supervision to deliver stories in a multidisciplinary team

  understand and be proficient in different types of testing

  be aware of but not responsible for security

Main Duties:

- Actively participate and contribute to the developer community

- Continuously improve the quality of the software and systems produced

- Develop own skills and knowledge through agreed personal development activities

- Develop software by following industry best practice, aligned to HMLR standards and approved technologies

- Identify and implement optimisations to the development process

- Learn and understand legacy technology and systems as required

- Learn the basics of Land Registry operations, including casework and register data

What will you get from us?

A year tailored to meet your development needs and experience in a variety of different areas. We will work with you to ensure that you get the most out of your time working with us. We will support your development aspirations and offer flexibility in your working week, to enable you to achieve a positive work life balance.

HMLR believe that a blended approach to where you work may give you an improved experience and has clear business benefits. We require everyone to spend at least 60% of their working time in the office. Please note in the training period, for the first 2 to 4 weeks, it will be expected that you spend 100% of your time in the office.

Person specification

You must have completed the second year of a relevant (IT-related) degree programme, by the start date September 2025 and are looking for a placement year in industry, before finishing your degree.

You have the following Technical Skills:

- Frontend web technologies

- Operating systems and environments

Programming languages

Relational databases

You can use information security practices and available security controls to contribute to protecting solutions and services. You can explain the most important principles of modern development standards and how they apply to your work.

You can design, code, test, correct and document simple programs or scripts under the direction of others. You can understand when to use a specific prototyping technique or method.

Please note this post is not available for those that have or are studying for a Masters degree.

For more information about the role and HMLR, please see the attached candidate pack.

Qualifications

You have completed the second year of a relevant (IT-related) degree programme, by the start date September 2025 and are looking for a placement year in industry, before finishing your degree.

Technical skills

We'll assess you against these technical skills during the selection process:

* Frontend web technologies * Operating systems and environments * Programming languages * Relational databases

Benefits

Alongside your salary of £30,958, HM Land Registry contributes £8,968 towards you being a member of the Civil Service Defined Benefit Pension scheme. Find out what benefits a Civil Service Pension provides.

Things you need to know

Selection process details

This vacancy is using Success Profiles (opens in a new window), and will assess your Strengths, Experience and Technical skills.

Please cut and paste an anonymous CV into the online application form and include your qualifications and career history.

You will be asked to complete a personal statement (in no more than 1000 words). This will be used to provide real examples of how you meet the 'Essential Experience' criteria listed below:

Information security - You can use information security practices and available security controls to contribute to protecting solutions and services

Modern development standards - You can explain the most important principles of modern development standards and how they apply to your work. You can apply modern development standards principles under guidance.

Programming and build - You can design, code, test, correct and document simple programs or scripts under the direction of others

Prototyping - You can understand when to use a specific prototyping technique or method. You can show the value of prototyping to your team

Please review your application form before clicking submit once you have submitted, you will not be able to amend your application. Ensure your application form is received by 23:55 on 9 March 2025.

The sift will take place once we have received your application and if successful at shortlisting stage, you will be invited to attend a blended interview, in our Plymouth office. Interviews will take place week commencing 17 & 24 March 2025.

The blended interview will assess your technical skills, essential experience and strengths associated with the role. We want to hear your first, unrehearsed, natural response to the strength questions, and so we don t advertise which strengths are being tested. The best way to prepare for strengths questions is to reflect on what you identify as your own personal strengths, and your preferred ways of working.

Candidates may refer to notes within their interview but they should be used as a prompt only.

HMLR is accredited to the Disability Confidence Scheme, which denotes organisations which have a positive attitude towards disabled people. Disabled applicants who meet the minimum essential criteria at the shortlisting stage are guaranteed an invitation to interview.
If any candidate requires the panel to consider a reasonable adjustment or there is anything else they would like the panel to take into consideration they are asked to notify us of this at application stage where possible or during the process as soon as it becomes a requirement.

You can find more information on how we use your personal data on our website.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

People working with government assets must complete baseline personnel security standard (opens in new window) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the European Union Settlement Scheme (EUSS) (opens in a new window)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

Further information on nationality requirements (opens in a new window)

Working for the Civil Service

The Civil Service Code (opens in a new window) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's recruitment principles (opens in a new window).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the Civil Service People Plan (opens in a new window) and the Civil Service Diversity and Inclusion Strategy (opens in a new window).

Apply and further information

This vacancy is part of the Great Place to Work for Veterans (opens in a new window) initiative.

Once this job has closed, the job advert will no longer be available. You may want to save a copy for your records.
