Job description

The DVLA deliver wide reaching digital services to the UK public and industry. We maintain the national record of vehicles and drivers which means we reach over 53 million people a year. If you have applied for a driving licence, changed vehicle, taxed your vehicle, or completed a vehicle enquiry you would have used one of our services.

You'll get to work alongside our business service designers and agile software development teams and use modern and exciting technologies.

Right now, we're rebuilding our services on a cloud-first platform using Containers and Serverless technologies as well as modern CI/CD tooling, so it's a great time to join.

Your responsibilities will include, but aren't limited to:

Leading the technical design of systems and services, justifying and communicating design decisions.

Assuring other services and system quality, ensuring the technical work fits into the broader strategy for the agency and wider government.

Exploring the benefits of cross-government alignment.

Providing mentoring within teams.

Providing leadership to other architects.

Communicating the shared vision effectively to stakeholders of a technical and non-technical nature

Getting to understand the code and embrace new techniques such as AI coding assistants and tooling that can be used to further the architecture community at the agency with wider industry best practice

Person specification

You will have an Architectural / Engineering background having worked in an architect or engineering lead role delivering enterprise and cloud-based software systems.

You will also hold the following skills and experience:

Knowledge of designing / building cloud native software on a platform such as AWS.

Experience with data security principles and systems designed to protect sensitive data.

Desire to create and maintain solution designs in an iterative and collaborative manner.

Ability to think strategically about business, product and technical challenges.

Excellent technical skills with the experience to be held accountable for technical aspects of delivering complex solutions, including end-to-end

solution design, delivery governance, assurance and support for Engineers and Delivery Managers.

Great interpersonal skills allowing you to work with technical and non-technical stakeholders alike.

You will be able to drive discussions with senior leaders across the agency as well as having the technical background that will enable you to easily interact and give guidance to software developers, testers and engineers.

Great line management is important to us as an organisation, and we will equip and support line managers to develop the skills they need. We aim to empower line managers to create teams where people can flourish and deliver excellent outcomes for the public.

For further information on the role, please read the attached role profile. Please note that the role profile is for information purposes only - whilst all elements are relevant to the role, they may not all be assessed during the recruitment process. This job advert will detail exactly what will be assessed during the recruitment process.

Working hours, office attendance and travel requirements

Full time roles consist of 37 hours per week. Whilst we welcome applications from those looking to work with us on a part time basis, there is a business requirement for the successful candidate to be able to work at least 35 hours per week.

This role **is suitable** for hybrid working, which is a non-contractual arrangement where a combination of workplace and home-based working can be accommodated subject to business requirements.

The expectation at present is a minimum of **60%** of your working time a month will be spent at either your designated workplace (one of the locations cited in the advert) or, when required for business reasons, in another office/ work location. There may be occasions where you are required to attend above the minimum expectation.

If you have a question about hybrid working, part time/job share hours, flexible working, travelling for work, or require a reasonable adjustment, please contact the Vacancy Holder during the recruitment process to avoid possible disappointment later in the process should your working arrangements not be compatible with the requirements of the role (see below for contact details).

Sponsorship

Please note that we do not hold a UK Visa & Immigration (UKVI) Skilled Worker Licence sponsor and are unable to sponsor any individuals for Skilled Worker Sponsorship. Candidates must ensure they have the appropriate rights to work in the UK before application.

Security Checking

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is security check. To allow for meaningful checks to be carried out, candidates will be required to have at least 5 years continuous residency in the UK. All applicants for this role must ensure that they meet this minimum residency requirement - if you do not, your application will be withdrawn.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our

[candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Behaviours, Experience and Technical skills.

How to apply:

Our selection process ensures a comprehensive assessment of each applicant's qualifications, skills, and potential fit within our organisation.

The selection process for this role will be:

Stage 1: Sift of CV

Stage 2: Interview & Presentation

You must be successful at each stage to progress to the next stage.

Stage 1: Sift of CV

As part of the application process, you will be asked to provide a CV to Inspire People (our Recruitment Partners) which outlines your experience and suitability for the role (based on the experience points outlined in the essential criteria on this advert).

Upon receipt of your CV, DVLA Hiring Managers will complete a sift. Please note; the sift will be completed on a rolling basis whilst the campaign is still live and so there is potential for feedback to be shared with you (on your application) before the advert closes.

To apply please click 'Apply at advertiser's site' at the bottom of the page. For this role you will need to submit a CV.

Within your CV please provide detailed evidence of your experience of the following essential criteria:

Experience of creating and maintaining solution designs in an iterative and collaborative manner.

Excellent technical skills, with the ability to demonstrate accountability for end-to-end solution designs and stakeholder management.

Experience with architectural governance processes and practices.

This sift will take place w/c 31/08/26

Stage 2: Interview & Presentation

At interview stage, you will be assessed against the following Success Profile elements:

Behaviours Leadership

Technical Technical design throughout the life cycle (expert) Presentation

Architecture communication (expert)

Making architectural decisions (Practitioner)

Strategy design (Practitioner)

The interviews will take place week commencing 14/09/26

Please note that the technical elements of the role will be assessed against Government Digital and Data Profession Capability Framework (Skills) which you will be able to access [here](#).

This interview will be conducted via Microsoft Teams. Further details will be provided to you should you be selected for interview.

You can find out more about [our hiring process, how to apply, and application and interview guidance on our careers site \(opens in a new window\)](#).

Please note that we will try to meet the dates set out in the advert. There may be occasions when these dates will change.

Further information on the selection process

Feedback on your application can only be provided if you attend an interview or assessment.

We will also hold a 12-month reserve list for this role, which may lead to potential opportunities beyond the role you applied for.

Appointments for this position will be made in order of merit. If you are successful in the selection process but there are no further available posts for the advertised role, you may be contacted to discuss an offer for a lower graded role (with similar experience and responsibility requirements). If you are unsuccessful in the selection process, your application may be considered for a lower graded position if your demonstrated skills and experience meet the requirements of the alternative position. Candidates will be considered in order of merit.

If your application is successful but you have been dismissed from the Civil Service, your application could be removed at the pre-employment checking stage depending on the nature of the dismissal.

Applicants who are successful at interview will be, as part of pre-employment screening, subject to a check on the Internal Fraud Database (IFD). This check will provide information about employees who have been dismissed for fraud or dishonesty offences. This check also applies to employees who resign or otherwise leave before being dismissed for fraud or dishonesty had their employment continued. Any applicant's details held on the IFD will be refused employment. A candidate is not eligible to apply for a role within the Civil Service if the application is made within a 5-year period following a dismissal for carrying out internal fraud against government.

All external applicants and current employees of accredited non-departmental public bodies (NDPBs) will be required to undergo a Social Media Check. A Social Media Check is a review of your publicly available online activity, typically across platforms like LinkedIn, Facebook, X (formerly Twitter), Instagram, and others. The purpose is to identify any public posts or content that could raise concerns for employers, such as:

- Hate speech or discriminatory behaviour

- Threats or acts of violence

- Illegal activity or substance misuse

- Sexually explicit material

- Extremist views or affiliations

Importantly, this check does not involve hacking into your accounts or accessing private messages. It only considers content you have chosen to make public. Employers use this kind of screening to help ensure their workplace remains safe, inclusive, and aligned with company values. It's not about judging your personality or lifestyle - it's about checking for potential red flags that might affect the role or company culture. If you have questions or concerns about the social media check, we would be happy to explain in more detail what's being looked at and how your data is handled securely and fairly.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.
