About the job

Job summary

The Government Digital Service (GDS) is the digital centre of government. We are responsible for setting, leading and delivering the vision for a modern digital government.

Our priorities are to drive a modern digital government, by:

1. joining up public sector services
2. harnessing the power of AI for the public good
3. strengthening and extending our digital and data public infrastructure
4. elevating leadership and investing in talent
5. funding for outcomes and procuring for growth and innovation
6. committing to transparency and driving accountability

We are home to the Incubator for Artificial Intelligence (I.AI), the world-leading GOV.UK and at the forefront of coordinating the UK's geospatial strategy and activity. We lead the Government Digital and Data function and champion the work of digital teams across government.

We're part of the Department for Science, Innovation and Technology (DSIT) and employ more than 1,000 people all over the UK, with hubs in Manchester, London and Bristol.

The Government Digital Service is where talent translates into impact. From your first day, you'll be working with some of the world's most highly-skilled digital professionals, all contributing their knowledge to make change on a national scale.

Join us for rewarding work that makes a difference across the UK. You'll solve some of the nation's highest-priority digital challenges, helping millions of people access services they need

What you'll do

The Service Transformation team aims to help the public sector improve services across government that people depend on every day. By leveraging the power of digital and data, we can transform how citizens interact with the government, making services faster, simpler, and fairer. We focus on helping and ensuring the public sector is designing services around the needs of users, whether they are individuals or businesses, saving people time and money, often when they're needed most.

Job description

Former DSIT recruitment campaigns are continuing as usual, but candidates should be aware that following the [Government's announcement](#) on the changes to some civil service departments, roles will be subject to the machinery of government moves and will ultimately be in one of the new departments. We will provide more information if you are selected for a role. This work remains of high importance to the civil service, and we thank you for your continued interest.

As a Senior Delivery Manager, you'll:

Delivery & execution

- lead and support one or more multidisciplinary agile teams to design and deliver user-centred digital products or services

- plan, track, and manage delivery using agile methods (e.g. Scrum, Kanban, or hybrid approaches) and digital tools (e.g. Jira, Mural, etc.)

- ensure work is prioritised, visible, and flowing efficiently through the delivery pipeline

- monitor progress against delivery goals, milestones, and outcomes, adapting plans as needed

Team enablement

- facilitate agile ceremonies (e.g. sprint planning, stand-ups, retrospectives, reviews)

- foster a collaborative, inclusive, and high-performing team culture

- work closely with Product Managers, Designers, User Researchers and Service Owners, and other roles as required

protect teams from unnecessary disruption and help resolve blockers and dependencies

coach teams and stakeholders on agile values, behaviours, and best practices

Stakeholder management

act as a key point of contact between delivery teams and stakeholders where applicable

communicate progress, risks, and issues clearly and transparently

manage expectations and support decision-making by presenting data-driven insights

Managing risks, dependencies and finances

identify, manage, and escalate delivery risks and dependencies

support forecasting, budgeting and supplier management, where applicable

ensure delivery activity aligns with organisational governance and assurance standards

Continuous improvement

use metrics (e.g. flow, throughput, predictability) to improve delivery performance

encourage experimentation, learning, and iterative improvement

contribute to the organisation's wider delivery capability and community of practice

Person specification

We're interested in people who

have experience using agile practices to ensure the iterative and timely delivery of products and services in complex environments that serve real user needs

communicates and influences confidently across user centred design, technical and non-technical stakeholders at all levels

have experience leading successful high functioning multidisciplinary delivery teams and have strong organisational skills and experience identifying and rectifying any issues within your team

experience leading significant pieces of work independently and can facilitate inclusive workshops and events with concrete outputs

has experience planning beyond product delivery and delivering engaging virtual and in-person events

experience identifying and challenging organisational processes of increasing complexity, taking the initiative to improve processes or tackle high-profile issues and actively tackle impediments, risks and blockers, communicating and escalating where necessary

are passionate about delivering high quality, modern, user centred digital products and services across the public sector, including central and local government

Benefits

There are many benefits of working at GDS, including:

flexible hybrid working with flexi-time and the option to work part-time or condensed hours

a Civil Service Pension with an average employer contribution of 28.97%

25 days of annual leave, increasing by a day each year up to a maximum of 30 days

an extra day off for the King's birthday

an in-year bonus scheme to recognise high performance

career progression and coaching, including a training budget for personal development

a focus on wellbeing with access to an employee assistance programme

job satisfaction from making government services easier to use and more inclusive for people across the UK

advances on pay, including for travel season tickets

death in service benefits

cycle to work scheme and facilities

- access to an employee discounts scheme
- 10 learning days per year
- volunteering opportunities (5 special leave days per year)
- access to a suite of learning activities through Civil Service learning
- access to children's holiday play schemes across different locations in central London

Any move to Government Digital Service from another employer will mean you can no longer access childcare vouchers. This includes moves between government departments. You may however be eligible for other government schemes, including Tax Free Childcare. Determine your eligibility at <https://www.childcarechoices.gov.uk>

Office attendance

The Department operates a discretionary hybrid working policy, which provides for a combination of working hours from your place of work and from your home in the UK. The current expectation for staff is to attend the office or non-home based location for 40-60% of the time over the accounting period.

DSIT does not normally offer full home working (i.e. working at home); but we do offer a variety of flexible working options (including occasionally working from home).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

The standard selection process for roles at GDS consists of:

- a simple application screening process - We only ask for a CV and 2 application questions
- a 60 minute video interview over Microsoft Teams

Depending on how many applications we get, there might also be an extra stage before the video interview, for example a phone interview or a technical exercise.

In the event we receive a high volume of applications, we will conduct the initial sift against the lead criteria which is:

Tell us about a time when you helped a team become better positioned to deliver its goals. This could include securing funding or resources, improving operating models or governance, managing competing demand, building stakeholder support, or establishing more effective ways of working. What was your role and what impact did your work have?

In the Civil Service, we use [Success Profiles](#) to evaluate your skills and ability. This gives us the best possible chance of finding the right person for the job, increases performance and improves diversity and inclusivity. We'll be assessing your technical abilities, skills, experience and behaviours that are relevant to this role.

For this role we'll be assessing you against the following [Civil Service Behaviours](#):

- working together
- changing and improving
- seeing the bigger picture
- delivering at pace

We'll also be assessing your experience and specialist technical skills against the following skills defined in the Government Digital and Data Capability Framework for the [Senior Delivery Manager](#) role:

- Agile and lean practices

Maintaining delivery momentum

Making a process work

Communicating between the technical and non-technical
