About the job

Job summary

We are seeking two skilled .NET Developer/Engineers to join our Digital and Technology team.

In this role, you will provide technical expertise to ensure Microsoft Azure Platform Services meet user needs, align with the Government Service Standard, and deliver value for money. You will work collaboratively with colleagues and partners across the organisation and wider public sector to support the ongoing development of innovative, user-focused solutions.

You will play a key role in developing and enhancing our Common Data Platform Service, supporting the organisation's target architecture and Digital, Data and Technology Strategy. This includes building and maintaining .NET applications hosted in Azure, developing REST and GraphQL APIs, and working with SQL Server and Cosmos DB to enable efficient data integration across services.

This is a fantastic opportunity to further your experience in Ofsted's well-established team. The post holder will work with high-achieving professionals at all levels, surrounded by a friendly and supportive team. They will have access to amazing benefits, such as flexible working hours, the Civil Service Pension Scheme, and 32.5 days annual leave + 8 bank holidays. We offer a hybrid working model, so you may also choose to spend a proportion of time working from home.

Job description

Please refer to the job specification for further information.

Person specification

Behaviours

We'll assess you against these behaviours during the selection process:

- Seeing the Big Picture

- Making Effective Decisions

- Communicating and Influencing

- Working Together

Technical skills

We'll assess you against these technical skills during the selection process:

- Experience of sharing knowledge with, as well as providing technical guidance to team members learning new skills.

- Demonstrated the ability to learn new technology with little guidance.

- A methodical and organised approach to their work, including effective prioritisation.

- Good communication skills, both written and verbal to a variety of technical and non-technical audiences.

- Experience and practical knowledge of common cloud platforms, patterns and services, specifically Microsoft Azure.

Experience and practical knowledge of maintainable, testable .NET (C#) based API development with an understanding of REST and/or GraphQL as a query language.

Knowledge and experience of working with Microsoft Azure SQL/SQL Server and/or Cosmos DB.

Proven working knowledge of Azure DevOps, including Git and pipelines. Making Infrastructure as Code (IaC) changes with a consistent approach, per environment, for predictability and safety.

We only ask for evidence of these technical skills on your application form:

Benefits

Alongside your salary of £46,490, Office for Standards in Education, Children's Services and Skills contributes £13,468 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides.](#)

Ofsted is devoted to **equality, diversity and inclusion**. Within our [Ofsted Strategy 2023-2027](#) we have stated that we will improve the representation of under-represented groups across the organisation and publish our progress on this annually. We are always looking to expand on our diverse workforce by recruiting candidates from varied backgrounds and differing experiences. We are proud to be a **Disability Confident Leader**, we continually engage with our 5 staff networks for protected characteristics, and highlight the work of our **Equalities, Diversity and Inclusion (EDI) Group**. We ensure all candidates are treated with fair and open competition, with all

appointments being made on merit and we use our Disability Confident Scheme (DCS) to provide assurance to all candidates of this.

Ofsted is committed to maintaining employee health and wellbeing, whether it is physically, emotionally, financially or socially, and offers a range of benefits to support employees in this. Such benefits include the option to join the Civil Service Pension Scheme, professional and personal development opportunities, 32.5 annual leave days per annum (plus eight days public holiday) and access to counselling and advisory services.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Behaviours, Experience and Technical skills.

Application and shortlisting

The selection panel will assess your application based on the evidence you have provided against the essential and desirable criteria outlined in the job specification.

You will also be required to upload a CV detailing your employment and education history.

Interview

Candidates who pass the benchmark at the shortlist stage will be invited to an interview where you will be assessed against a mixture of the Civil Service behaviours and on the technical/experience skills as detailed in the job specification.

Interviews will be held during the **week commencing 13 July 2026** at **23 Stephenson Street, Birmingham** and/or **10 South Colonnade, London**.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.
