Job summary

We are MHCLG

Build your digital career with us in Manchester. Technology has an important role to play in how government delivers services and supports communities. As part of our Digital, Data and Information Directorate, you'll have the opportunity to work on digital services that make a real difference to people's lives.

Based in Manchester, you'll join a multidisciplinary digital team and work alongside experienced colleagues to build and improve services used by citizens, Local Authorities and people across MHCLG.

From supporting large-scale grant programmes and using data to improve decision-making, to supporting refugee resettlement, our work contributes to some of the department's most important services.

As the department's central digital function, we also provide the technology, platforms and infrastructure that enable teams across MHCLG to deliver their work.

Our teams bring together civil servants and specialist professionals from a range of backgrounds and areas of expertise, giving you the opportunity to learn, contribute your ideas and develop your digital career.

About the role

As a Junior Developer, you'll have the opportunity to put your technical skills into practice while learning from experienced developers. You'll work as part

of a multidisciplinary team to understand user needs, solve problems and build software that supports people and communities.

You'll learn through practical experience, including pair programming, writing automated tests and working with colleagues across digital and policy teams. We use the right technology for the job, so you may work with a range of programming languages or Microsoft Power Platform.

Find out more about our digital teams and what they are working on through our [MHCLG Digital blog](#). You can find out how we build software [The MHCLG Way](#).

Please note that MHCLG does not offer visa sponsorship. Applicants will need a valid visa that allows them to work in the UK for the duration of their employment.

Job description

As a Junior Developer, you'll:

Develop and maintain high-quality software, working with experienced developers and a multidisciplinary team to build secure, reliable and user-focused digital services.

Use development best practices, including pair programming, test-driven development (TDD) and automated testing, with support from experienced colleagues.

Help maintain the reliability and security of our services by monitoring systems and supporting the management of production environments.

Develop and maintain automated tests that support continuous integration and deployment.

Work collaboratively with developers and colleagues across disciplines, including product managers, designers and user researchers, to understand user needs and deliver effective solutions.

Share your knowledge and ideas with colleagues and contribute to the wider development community as you build your skills and experience.

Person specification

We're looking for people who can work with others, are interested in building a career in software development, and have a foundation of technical skills they can build on.

As a Junior Developer you'll have:

Experience with a modern programming language, such as Python or Java, or experience with Microsoft Power Platform or Dynamics 365, potentially alongside JavaScript and C#.

Experience developing web applications, with an understanding of full-stack development, version control, and cloud-based infrastructure such as AWS or Azure.

Experience working with RESTful APIs and an understanding of how they are used to connect digital services.

Experience using SQL and relational databases, ideally PostgreSQL or Microsoft Dataverse.

Good communication and collaboration skills, with the ability to explain ideas, raise problems and share progress clearly with colleagues.

A commitment to your own learning and development, with a willingness to learn new technologies, tools and ways of working.

Benefits

Alongside your salary of £42,005, Ministry of Housing, Communities and Local Government contributes £12,168 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

At MHCLG we offer many benefits that range from tailored career pathways and flexible working to MyLifestyle Childcare Voucher and Cycle to Work Schemes. For more information, please click [here](#).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

Application and Selection

The application process will be split into 2 stages, testing the following Success Profiles:

Ability , **Behaviours** , **Experience** , **Technical**

Please ensure your CV does not contain any personally identifiable information.

Note: We do not consider direct CV applications. All applications must be submitted via the provided application link.

Stage 1: Sift (CV)

Experience: Your CV will be assessed against the criteria in the job description and person specification.

Most of our campaigns utilise multiple assessors and so it is possible that each of your answers would be viewed by different assessors.

In the event that we receive a large number of applications, we may conduct an initial sift using the lead sift question listed in the advert. Candidates who pass the initial sift may be progressed to a full sift, or progressed straight to interview.

Lead sift question:

Technical: Tell us about something you have created, helped build, or contributed to using software development skills. What tools or technologies did you use, how did you decide to use them, and how did you know it worked as intended? **(250 words)**

Stage 2: Interview

Behaviours: Developing Self and Others, Working Together

Ability: Candidates will be asked to undertake a team challenge and technical exercise during the interview process, further details will be provided on invitation to interview.

Technical: Technical questions will be based around the essential skills and criteria as listed in the job description.

If there are a large number of high scoring applicants we may need to introduce a 15 minute remote interview prior to the assessment centre taking place. If that is the case the success profiles tested will be:

Technical: Technical questions will be based around the essential skills and criteria as listed in the job description.

Behaviours: Working Together

Sift and Interview Dates

Sifting is envisaged to take place the week commencing 12th October 2026.

Interviews will be held in November in Manchester and will be in person. Further details will be provided on invitation to interview.

Group 1 Digital & Data Roles

MHCLG has implemented the Digital and Data capability framework for Group 1 roles. Applicants that are successful and have been offered a position will be required to complete a capability assessment after the interview.

MHCLG will honour completed capability assessments for this role from other Government Departments for existing civil servants on level transfer only. Please provide a copy of your capability assessment to the Hiring

Manager when applying. If you have any queries on pay, please contact the Hiring Manager.

Candidates moving from another government department have the option to retain their current basic pay if this is within our pay band for the relevant grade.

Grade HEO Group 1 Digital and Data salary

The basic pay for this role will be £42,005 (National). These rates represent the maximum salary payable for this role.

For applicants in receipt of existing allowances, we will assess each case individually, but we would seek not to exceed the maximum of the pay band for that grade, the usual policy on level transfer and promotion will apply, subject to the statements above.

Security

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

Further information

If you are unsure about any part of the process or require additional information about the post to enable you to progress your application, you should speak to the Resourcing team - Recruitment@communities.gov.uk. Candidates can appeal at any stage of the recruitment process if they believe there has been:

a procedural irregularity

an infringement of the Civil Service equal opportunities policy

exceptional circumstances which were not notified to the interview panel which might have affected performance on the day.

It is important to note that these are appeals about the process not the decision. In the first instance, an appeal should be directed to the MHCLG Resourcing Hub at Recruitment@communities.gov.uk.

If the MHCLG Resourcing Hub is unable to satisfactorily resolve your complaint, you may contact put your complaint in writing to the Civil Service Commission, Room G8,1 Horse Guards Road, London, SW1A 2HQ or by email to: info@csc.gov.uk
