About the job

Job summary

Please note this role requires you to pass [Security Check](#) clearance. For further information, please see 'Selection process details'.

This is a fantastic opportunity to join DWP and to be part of the one of the biggest digital transformations in Europe, implementing leading edge technologies with the user at the centre of everything we do – we create innovative digital solutions that make a difference to the lives of our 22 million users.

We are looking for a Senior Site Reliability Engineer to join one of our SRE teams at the heart of Digital Transformation.

As a Senior Site Reliability Engineer, you will drive adoption of SRE best practice across our cloud estate.

By utilising both your soft skills and technical experience, you will work with teams to ensure our standards and governance is met by onboarding our services into the cloud, through a dedicated assessment stage gate process. In turn, ensuring our citizen facing applications satisfy all the required operational and security needs for running in production.

Job description

As a Senior Site Reliability Engineer, you will play a pivotal role in ensuring the reliability and performance of our applications and infrastructure.

The SRE team will put you in the position to work with application teams across the department on developing reliable and secure solutions to provide to citizens across the UK.

You will lead by example, providing technical direction and supporting other SREs within your team.

You will work with development teams from the design phase to help them use good practice and department standards when building their application infrastructure.

Additionally, responsibilities of the role will include:

- Design and develop the techniques for improving application reliability, run books, knowledge transfer across teams, and ongoing SRE strategy within your Functional and Professional Communities.

- Work collaboratively with development teams and provide guidance around best practice and ensure monitoring of applications is enabled.

- Push a mindset change within the organisation to foster engineering ownership, SRE best practice and the importance of the integrity and maintenance of the Live Service.

- Manage the error budget agreed with the product owner for the application and ensure that work is balanced in alignment with it.

- Act as the focal point for the investigation and resolution of major or complex incidents for the service, ensuring people with the right skills and expertise are proactively available to respond effectively.

- Assess the impact of change requests in consultation with stakeholders, providing technical expertise and authorising the implementation of subsequent changes.

- Coach and mentor application development and operations engineers in the practice and techniques of SRE.

- Conduct reviews for all high priority and major incidents ensuring they are done quickly and published.

- Routinely seek views and capture ideas from stakeholders and team members for improvements and encourage collaboration and innovation.

- Provide on-call support to help restore services, through dedicated run books or technical experience.

- Help to reduce toil and increase automation; by developing reliability to ensure we have a reduction of the time to live, and cost spend on repetitive tasks.

Please note: Participation in out-of-hours on-call incident support on a rota basis is a requirement for this role. Full training and support will be provided.

Technical skills

We'll assess you against these technical skills during the selection process:

Automation

Benefits

Alongside your salary of £57,946, Department for Work and Pensions contributes £16,786 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides.](#)

We also have a broad benefits package built around your work-life balance which includes:

Working patterns to support work/life balance such as job sharing, term-time working, flexi-time and compressed hours.

Generous annual leave at least 25 days on entry, increasing up to 30 days over time (pro rata for part time employees), plus 9 days public and privilege leave.

Support for financial wellbeing, including interest-free season ticket loans for travel, a cycle to work scheme and an employee discount scheme.

Health and wellbeing support including our Employee Assistance Programme for specialist advice and counselling and the opportunity to join [HASSRA](#) a first-class programme of competitions, activities and benefits for its members (subscription payable monthly).

Family friendly policies including enhanced maternity and shared parental leave pay after 1 year's continuous service.

Funded learning and development to support progress in your role and career. This includes industry recognised qualifications and accreditations, coaching, mentoring and talent development programmes.

An inclusive and diverse environment with opportunities to join professional and interpersonal networks including Women's Network, National Race Network, National Disability Network (THRIVE) and many more.

Hybrid Working

This role may be suitable for hybrid working, which is where an employee works part of the week in their DWP office and part of the week from home. This is a voluntary, non-contractual arrangement and your office will be your contractual place of work.

If a hybrid working arrangement is suitable for the role and for you, you will normally be required to spend a minimum of 60% of your contracted working hours from your DWP office.

If you have a disability, caring responsibilities, or other circumstances that may affect your ability to meet the minimum office attendance requirement, please discuss this with us using the contact details in this advert.

Salary Information

Pay for this role is from £57,946 to £80,664.

The maximum salary for the grade is £68,205, however a Digital Allowance of up to £12,459 per annum is available for exceptional candidates. Digital Allowance is non-salary, and non-pensionable, and is classed as a temporary allowance. It is reviewed annually where it could be retained, amended, or removed.

Our offer to successful candidates will be based on an assessment of your skills and experience as demonstrated at interview.

Existing Civil Servants who secure a new role on lateral transfer will maintain their current substantive salary.

Existing Civil Servants who gain promotion will move to the bottom of the grade pay scale or receive a 10% increase applied to their current substantive salary, whichever is greater.

Any temporary allowances that you are currently in receipt of will not form part of the calculation to determine your pay. Any allowances that are in payment will cease when you move into your new role.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Experience and Technical skills.

Stage 1: Application

Your application will consist of four parts:

1. A Personal Details application form.
2. Employment history - this should contain your work experience and any skills, qualifications and accomplishments relevant to the jobs you have completed.

3. Personal statement - up to 1000 words. This statement should be used to provide examples of how you meet the essential criteria below:

Demonstrable experience of reliability engineering including capacity and performance management through monitoring, logging, and alerting.

Demonstrable experience of supporting a Live Service, including live operations, incident management, and continuous improvement.

Demonstrable experience of developing and supporting cloud-based applications in AWS.

Demonstrable experience of building and maintaining CI/CD pipelines.

Demonstrable experience communicating effectively with stakeholders at multiple levels to provide feedback and support.

4. Technical statement (up to 250 words). The following statement is aligned to the required technical skill of: Automation. This statement should be used to provide example(s) of how you meet the criterion below:

Demonstrable experience using automation to remove toil with scripting, infrastructure, and configuration as code.

Ensure that all examples provided in your statements are taken directly from your own experience and that you describe the examples in your own words. If you choose to use gen-AI to support your statements, you must follow the guidelines outlined in the **Artificial intelligence and recruitment guide**.

The sift panel will use the information in your employment history, personal statement, and technical statement to assess your experience, skills and knowledge.

An initial sift will be conducted using the technical statement. Candidates who pass the initial sift will be progressed to a full sift.

If you do progress to a full sift, you will be provided with one combined overall assessment score for both your employment history and Personal Statement.

For Hints and Tips on completing your application visit [Applying for jobs at DWP Digital](#).

Important Information

You will be asked to complete your employment history. Any information that you would customarily share on a CV should therefore be entered onto the application form.

Personal details that could be used to identify you including your name, contact details and address must be removed for your application to be considered.

If your employment history, personal statement or technical statement contain any personal details your application will be withdrawn.

Stage 2: Interview

If you're successful at the sift stage, you'll be invited to a video interview via Microsoft Teams. During the interview, you'll be assessed against the experience criteria listed under both the essential criteria and technical skill.

Interviews will take place from mid July 2026. Interview dates to be confirmed.

Other information:

If high application volumes are received, the benchmark for candidates to proceed to the next stage may be raised. In line with our commitment to the Disability Confident Scheme (DCS), we aim to advance all candidates applying under the DCS who meet the minimum standard. However, we may only progress those candidates who best meet the required standards.

All successful candidates and those placed on reserve will be posted in merit list order by location.

For these vacancies, we strongly recommend that applicants consult with an immigration specialist or qualified advisor to assess their eligibility for Visa Sponsorship before deciding to apply. Please note that while we consider sponsorship requests in accordance with current DWP guidance and Home Office policy, sponsorship cannot be guaranteed.

Security Clearance Requirement

You must meet the security requirements before you can be appointed. The level of security needed is security check.

You must have resided continuously in the UK for at least 3 of the last 5 years, 2 of which must have been the immediately preceding years from the point of applying for this job.
