### [We are MHCLG](#)

Here at the Ministry of Housing, Communities & Local Government (MHCLG), we work on things that make a real difference to people's lives. Whether it's through the homes we live in, the work of our local councils, or the communities we're all part of, our work is at the top of the political agenda. We have ambitious and far-reaching outcomes to achieve this year and, if you're thinking of joining us, there's never been a more exciting time.

This is an exciting opportunity to join the Elections Directorate, responsible for a challenging and dynamic policy landscape, always in the public eye, covering electoral policy and law and digital services. The Elections Digital division is a team of enthusiastic and highly skilled digital specialists, geographically dispersed across the UK. Our multidisciplinary in-house digital team is the driving force behind the development and delivery of excellent elections services for users, as well as the day-to-day operational running of those services.

The division has a portfolio of 8 products and services, including the flagship Register to vote service. Over recent years, we've rapidly expanded our portfolio, and electors can now apply online postal votes, proxy votes and photo identification. Find out more in [this blog post](#).

As well as continuing to develop our existing products and services to better meet user needs, the Digital Division has a big part to play in delivering Government Manifesto commitments and other Ministerial priorities. Lowering the voting age to 16 requires changes to all our elector-facing services, making them the first interaction that many young people will have

with the GOV.UK estate. We are also seeking to improve registration by using data and links between government services to increase the number of people correctly registered to vote.

As a Senior Developer in the Elections Digital Division you will be part of our new in-house development capability. You will be joining a large multidisciplinary team with a wide range of stakeholders. We need people who want to be involved in all aspects of our multidisciplinary team's activity, from working with our user researcher to design, prototyping, and planning. You can find out more about how we work in the [MHCLG Way](#)

Find out more about our Digital teams through our [MHCLG Digital blog](#). Please note that MHCLG do not offer visa sponsorship and applicants will need a valid visa for the duration of your employment.

## **Job description**

As a Senior Developer, you will:

- Develop high-quality software

- Follow development best-practice, including regular pair programming and TDD

- Build up a robust automated test suite to support our continuous deployment environment

- Work collaboratively with a range of disciplines including product managers, designers and user researchers, as well as other developers, to meet the needs of users of the services

- Coach and mentor more junior colleagues

- Find ways to improve system robustness, resilience and stability

- Be open to learning new technologies

## Person specification

As a Senior Developer you'll have;

Experience of developing web applications in at least one of TypeScript, Java, Kotlin or Scala

Experience of working on agile projects as part of a multidisciplinary team

Experience of full stack development of cloud-based web applications using cloud-native features

Experience of Infrastructure as Code e.g. Terraform

Experience building RESTful APIs

Experience of building accessible user interfaces

Experience using SQL to work with relational databases

Experience of working with a live production system, including monitoring for performance and potential security issues, and triaging problems

## Benefits

Alongside your salary of £58,092, Ministry of Housing, Communities and Local Government contributes £16,829 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

Learning and development tailored to your role

# Things you need to know

## Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

## Selection process details

### Application and Selection

The application process will be split into 3 stages, testing the following Success Profiles:

**Ability** , **Behaviours** , **Experience** , **Technical**

**Please** ensure your CV does not contain any personally identifiable information.

**Note:** We do not consider direct CV applications. All applications must be submitted via the provided application link.

**Important:** Your CV and Cover Letter must be merged into a single document before uploading.

### Stage 1: Sift (CV)

Experience & Technical: Your CV will be tested against the experience and technical success profiles.

Most of our campaigns utilise multiple assessors and so it is possible that each of your answers would be viewed by different assessors.

## **Stage 2: Long List Interview**

This interview will be tested against the technical success profile and a behaviour ("Working Together"). We expect this will last no longer than 30 minutes.

## **Stage 3: Short List Interview**

This interview will be tested against the ability and technical success profiles.

30 minute interview testing the skills as described in the advert and technical test that will last approx. 45 minutes. Details of the test will be shared on invitation to your slot.

## **Sift and Interview Dates**

Sifting is envisaged to take place from **8th July 2026**.

Interviews are envisaged to take place the week commencing **20th July 2026** and are currently being held remotely via videocall. This could be subject to change.

## **Group 1 Digital & Data Roles**

**MHCLG has implemented the Digital and Data capability framework for Group 1 roles. Applicants that are successful and have been offered a position will be required to complete a capability assessment after the interview.**

**MHCLG will honour completed capability assessments for this role from other Government Departments for existing civil servants on level transfer only. Please provide a copy of your capability assessment to the Hiring Manager when applying. If you have any queries on pay, please contact the Hiring Manager.**

**Each experience or technical skill is assessed between 1-3, representing working towards, at or above the job level requirements. You are awarded a proficiency level accordingly, and you will be given opportunity to annually re assess your capability and potentially increase your overall remuneration, through payment of allowances, depending on level of assessed capability.**

**Candidates moving from another government department have the option to retain their current basic pay if this is within our pay band for the relevant grade.**

#### **GRADE 7 Group 1 Digital and Data salary**

**The basic pay for this role will be between £63,483 - £72,287 (London), £58,092 - £66,742 (National). Candidates will usually be recruited to the median of the payscale.**

**A digital allowance may also be payable depending on the level of assessed capability, in order to meet the MHCLG overall targeted remuneration rate for the specific grade, location and capability rating.**

**For applicants in receipt of existing allowances, we will assess each case individually, but we would seek not to exceed the MHCLG overall targeted remuneration rate for the specific grade, location and capability rating for existing civil servants, the usual policy on level transfer and promotion will apply, subject to the statements above.**
