About the job

Job summary

We're looking for two **Senior Developers** to help us make a difference to our planet.

As our Senior Developer, the job may be suitable for hybrid working, which is where an employee works part of the week in the office and part of the week from home. This is a voluntary, non-contractual arrangement and the location advertised will be your contractual place of work.

Our opportunity is full time, 37 hours per week, based in Exeter HQ.

World changing work

From science to technology, from meteorology to management, and from planning to communication, our expertise helps us stand out as the authority on weather accuracy and climate prediction. We help individuals, industries and government to make better decisions to stay safe and thrive. This is the Met Office. This is who we are.

We're a force for good - focusing on our environmental and social impact

We're experts by nature - always learning and developing to do things better

We live and breathe it - putting our purpose at the heart of decision-making

We're better together - understanding partnerships and inclusivity make us greater

We keep evolving - pushing boundaries to make tomorrow better for our customers

Job description

You will be working as a Senior Developer in the Transport Tribe delivering services to meet the needs of the Transport Industry. This includes both regulatory and commercial weather data to Aviation, Road, Marine and Rail sectors. You will be working primarily with Python and AWS in a serverless environment. It is an exciting and essential part of the work the Met Office does.

Your key duties:

- Plan and lead development on sets of related user stories.

- Have an understanding of the whole system and take responsibility for teaching this to others.

- Work with other disciplines to understand what needs to be built.

- Coach and mentor more junior colleagues.

- Find ways to improve system robustness, resilience and stability.

We operate an on-call roster in Technology to provide 24/7/365 support to respond to operational service requirements. This post may be part of an on-call roster and the postholder would be required to participate in an on-call roster where in operation

Person specification

Essential Criteria, skills and experience:

1. Demonstrable expertise in designing, developing, and building complex software solutions using and setting modern development standards, with a thorough understanding of secure coding practices and information security principles. (We're experts by nature) **(Lead Criteria)**
2. Proven ability to lead the prototyping of innovative technical solutions, including the rapid development and iteration of Proof-of-Concept systems, and clearly communicating the outcomes to both technical and non-technical stakeholders. (We keep evolving)
3. Demonstrated commitment to understanding user needs and translating them into effective technical solutions, including experience working with

user researchers and product owners to gather feedback and iteratively improve products.

4. Demonstrable expertise in identifying process optimisation opportunities, including contributing to the implementation of the proposed solutions. (We keep evolving)
5. Experience in teaching, mentoring and coaching more junior team members in existing and new technologies and ways of working.

The panel may perform a preliminary sift of the lead criteria as indicated above.

Benefits

Alongside your salary of £43,081, Met Office contributes £12,480 towards you being a member of the Civil Service Defined Benefit Pension scheme. Find out what benefits a Civil Service Pension provides.

Why join us

Our work is life-changing, often life-saving and always life-enhancing. The Met Office is Great Place to Work UK certified. We are also featured on their Best Workplaces in Tech 2023, 2024 and 2025 lists, as well as their 54 Best Workplaces for Women 2023 list.

As our Senior Developer, your total reward package will be up to £65,586 annually, which includes:

£43,081 base pay.

An outstanding Civil Service pension, with an average employer contribution of 28.97%.

Recruitment Retention Allowance (RRA) you will be paid £5,300 per annum as a market supplement to reflect the demand for your skills. Whilst in post, you will be paid this market driven allowance from April 2026 until March 2027 in your monthly pay.

Annual Leave starting at 27.5 days (plus Bank Holidays) rising to 32.5 days (plus Bank Holidays) after 5 years and option to buy or sell up to 5 days per year of annual leave.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

How to apply

If you share our values, we'd love to hear from you! Click apply to begin your application. Please complete your career history and provide evidence against each of the essential criteria in the supporting statement questionnaire. We recommend candidates use the CARL method (Context, Action, Result and Learning) for presenting evidence of experience and skills.
