Job summary

Job summary

The Government Digital Service (GDS) is the digital centre of government. We are responsible for setting, leading and delivering the vision for a modern digital government.

Our priorities are to drive a modern digital government, by:

- joining up public sector services
- harnessing the power of AI for the public good
- strengthening and extending our digital and data public infrastructure
- elevating leadership and investing in talent
- funding for outcomes and procuring for growth and innovation
- committing to transparency and driving accountability

We are home to the Incubator for Artificial Intelligence (I.AI), the world-leading GOV.UK and at the forefront of coordinating the UK s geospatial strategy and activity. We lead the Government Digital and Data function and champion the work of digital teams across government.

We re part of the Department for Science, Innovation and Technology (DSIT) and employ more than 1,000 people all over the UK, with hubs in Manchester, London and Bristol.

The Government Digital Service is where talent translates into impact. From your first day, you ll be working with some of the world s most highly-skilled digital professionals, all contributing their knowledge to make change on a national scale.

Join us for rewarding work that makes a difference across the UK. You'll solve some of the nation s highest-priority digital challenges, helping millions of people access services they need

Job description

Former DSIT recruitment campaigns are continuing as usual, but candidates should be aware that following theGovernment s announcement on the changes to some civil service departments, roles will be subject to the machinery of government moves and will ultimately be in one of the new departments. We will provide more information if you are selected for a role. This work remains of high importance to the civil service, and we thank you for your continued interest.

The GDS IDEA (Insight, Data Science, Economics, and Analysis) Unit is looking for talented data scientists to join our dynamic, high-impact, multidisciplinary team. We combine cutting-edge AI, advanced data science, and analytical expertise to deliver powerful insights, automation efficiency, and build the evidence base that drives smarter, more impactful decisions across DSIT.

As a Senior Economic Data Analyst you ll:

- Lead analytical projects to build on GDS existing economic evidence base, delivering analysis across digital and data themes, including AI, service transformation and data sharing.
- Identify opportunities for your analysis to support improved implementation where challenges exist, building relationships with analysts and key officials across GDS and wider DSIT
- Lead horizon-scanning work on emerging digital and AI technologies, developing and applying advanced modelling frameworks (e.g. Monte Carlo, uptake curves, ROI estimates) to quantify the benefits of such technologies
- Create reproducible analytical pipelines in Python, managing the full data lifecycle from preparation and linkage through to delivery, documentation, and visualisation
- Support effective data management by advocating consistent use of trusted sources and transparent documentation of data processes
- Provide clear, engaging briefings and visualisations of complex analysis for senior officials and cross-Government audiences
- Support the wider organisation with Green Book standard cost benefit analysis on complex and novel projects, including for HMT fiscal events

Person specification

This role requires:

- an experienced (economic) data analyst with experience working in Government and applying a wide range of analytical techniques, such as economic analysis, Monte Carlo analysis, predictive modelling and cost-benefit analysis
- strong analytical skills, with experience of working in high-performing teams producing top-quality analysis for multiple stakeholders and managing various deadlines. An understanding and experience in the application of Green Book techniques in Business Cases would be an advantage, as would experience of data analysis and visualisation in Python
- excellent ability to translate complex and broad material both qualitative and quantitative into clear written or oral analysis and communications, including briefings and presentations; and an ability to operate effectively and flexibly in a fast-paced, political and complex environment.
- the ability to work proactively and set the agenda, working with a high degree of autonomy and being comfortable identifying priorities in your policy areas, and what needs to take place to achieve them. This will require considering a wide range of evidence and advice from expert stakeholders
- membership of the Government Economic Service, the Government Operational Research Service, the Government Social Research or the Government Statistician Group
- a degree in a numerate discipline or equivalent professional work experience this could be as an operational researcher, statistician, social researcher, economist, or data analyst

Benefits

There are many benefits of working at GDS, including:

- flexible hybrid working with flexi-time and the option to work part-time or condensed hours
- a Civil Service Pension with an average employer contribution of 28.97%

25 days of annual leave, increasing by a day each year up to a maximum of 30 days

an extra day off for the King s birthday

an in-year bonus scheme to recognise high performance

career progression and coaching, including a training budget for personal development

a focus on wellbeing with access to an employee assistance programme

job satisfaction from making government services easier to use and more inclusive for people across the UK

advances on pay, including for travel season tickets

death in service benefits

cycle to work scheme and facilities

access to an employee discounts scheme

10 learning days per year

volunteering opportunities (5 special leave days per year)

access to a suite of learning activities through Civil Service learning

Any move to Government Digital Service from another employer will mean you can no longer access childcare vouchers. This includes moves between government departments. You may however be eligible for other government schemes, including Tax Free Childcare. Determine your eligibility at https://www.childcarechoices.gov.uk

Office attendance

The Department operates a discretionary hybrid working policy, which provides for a combination of working hours from your place of work and from your home in the UK. The current expectation for staff is to attend the office or non-home based location for 40-60% of the time over the accounting period.

DSIT does not normally offer full home working (i.e. working at home); but we do offer a variety of flexible working options (including occasionally working from home).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our candidate guidance (opens in a new window) for more information on appropriate and inappropriate use.

Selection process details

The standard selection process for roles at GDS consists of:

- a simple application screening process - We only ask for a CV and cover letter of up to 750 words. Important tip - please ensure that your cover letter includes how you meet the skills and experience listed in the person specification section above
- a 60 minute video interview which will feature a presentation. Details of the presentation will be shared with invited candidates

Depending on how many applications we get, there might also be an extra stage before the video interview, for example a phone interview or a technical exercise.

While we value the use of AI technology to enhance our daily work, we also value the personal touch and urge applicants to write cover letters without the use of AI to emphasise their own unique experiences.

In the event we receive a high volume of applications, we will conduct the initial sift against the lead criteria which is: **An experienced (economic) data analyst with experience working in Government and applying a wide range of analytical techniques, such as economic analysis, Monte Carlo analysis, predictive modelling and cost-benefit analysis.**

In the Civil Service, we use Success Profiles to evaluate your skills and ability. This gives us the best possible chance of finding the right person for the job,

increases performance and improves diversity and inclusivity. We ll be assessing your technical abilities, skills, experience and behaviours that are relevant to this role.

For this role we ll be assessing you against the following Civil Service Behaviours:

- communicating and influencing
- working Together
- delivering at pace
- seeing the big picture

We ll also be assessing your experience and specialist technical skills against the following skills defined in the Government Digital and Data Capability Framework for the Senior Data Analyst role

- communicating between the technical and non-technical
- delivering business impact through data
- data visualisation
- developing code for analysis

Recruitment Timeline

Sift completion: 30/11/2026

Panel interviews: Starting from 7/11/2026

Candidates that do not pass the interview but have demonstrated an acceptable standard may be considered for similar roles at a lower grade.

A reserve list will be held for a period of 12 months, from which further appointments can be made.

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the Civil Service People Plan and the Civil Service D&I Strategy.

Please note that this role requires SC clearance to start, which would normally need 5 years UK residency in the past 5 years. This is not an absolute requirement, but supplementary checks may be needed where individuals have not lived in the UK for that period. This may mean your security clearance (and therefore your appointment) will take longer or, in some cases, not be possible.

For meaningful checks to be carried out, you will need to have lived in the UK for a sufficient period of time, to enable appropriate checks to be carried out and produce a result which provides the required level of assurance. Whilst a lack of UK residency in itself is not necessarily a bar to a security clearance, and expectation of UK residency may range from 3 to 5 years. Failure to meet the residency requirements needed for the role may result in the withdrawal of provisional jobs offers.

Sponsorship

DSIT cannot offer Visa sponsorship to candidates through this campaign. DSIT holds a Visa sponsorship licence but this can only be used for certain roles and this campaign does not qualify.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a basic (or equivalent) criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is security check (opens in a new window).

See our vetting charter (opens in a new window).

People working with government assets must complete baseline personnel security standard (opens in new window) checks.

Nationality requirements

This job is broadly open to the following groups:

- UK nationals
- nationals of the Republic of Ireland
- nationals of Commonwealth countries who have the right to work in the UK
- nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the European Union Settlement Scheme (EUSS) (opens in a new window)
- nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)
- individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020
- Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

Further information on nationality requirements (opens in a new window)

Working for the Civil Service

The Civil Service Code (opens in a new window) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's recruitment principles (opens in a new window).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the Civil Service People Plan (opens in a new window) and the Civil Service Diversity and Inclusion Strategy (opens in a new window).

Apply and further information

This vacancy is part of the Great Place to Work for Veterans (opens in a new window) initiative.

The Civil Service welcomes applications from people who have recently left prison or have an unspent conviction. Read more about prison leaver recruitment (opens in new window).

Once this job has closed, the job advert will no longer be available. You may want to save a copy for your records.
