Working pattern: Full-time, Part-time, Flexible working

Contract Type: Permanent

Number of vacancies: 4

Vacancy number: 17548

*We offer a hybrid working model, allowing for a balance between remote work and time spent in your local office. Office locations can be found [ON THIS MAP](#)

Please note that unless you are an existing member of staff at Justice Digital, Data and Science, the only London location being recruited to is 10 South Colonnade, E14 4PU. We are no longer recruiting to 102 Petty France, SW1H 9AJ.

The Role

Please note this role requires you to pass Security Check clearance. Please click on the link for details.

We're recruiting for Senior DevOps Engineers here at Justice Digital, Data and Science to be part of our warm and collaborative OPG Digital & LAA Digital teams.

This role aligns against Senior DevOps Engineer from the Government Digital and Data Framework.

At Justice Digital, we're dedicated to leveraging technology to drive impactful change across the justice system. As a Senior DevOps Engineer, you'll play a pivotal role in enhancing access to justice and improving outcomes for offenders through innovative digital solutions.

You'll be working on our acclaimed open-source public services, with user needs at the heart of everything, helping us transform Government for the future. Working as part of a multi-disciplinary team, you'll be helping define how we do what we do and making sure that our systems are built to be changed rapidly.

You'll collaborate closely with software developers, product managers, designers, delivery managers, technical architects and content specialists who share our vision of leveraging technology to transform government services.

Our Tech Stack

We use a diverse range of technologies, and we're seeking individuals who specialise in one or more and are eager to learn new languages and frameworks.

Our tech stack includes:

Cloud infrastructure: AWS

Infrastructure-as-code: Terraform

Containerisation: Docker

CI/CD deployments: GitHub Actions

Application code: Go, PHP, Python, Ruby

Once part of our team, we'll support you in mastering our tech stack, regardless of your current experience. Explore our [GitHub](#) for insights into our technologies and the services we develop and maintain.

Join over 150 experienced software and devops engineers who form our vibrant engineering community across the MoJ. You'll have opportunities to mentor junior colleagues and participate in informal support networks with peers. We encourage active engagement in shaping our engineering culture and community.

We take pride in our supportive and effective line management. Your skills are highly valued, and we're committed to helping you expand them within the civil service. You'll have opportunities to move between teams or departments, explore new technologies, and take on increased responsibilities aligned with your career goals.

Dive deeper into our work and culture by visiting our [Developer Blog](#)

You ll receive a range of excellent benefits when you join our department, including:

A generous employer pension contribution of 28.97% through the Civil Service Pension Scheme.

25 days of annual leave, (increasing to 30 days once you have reached 5 years of service), plus 8 bank holidays and a privilege day for the King s birthday.

Flexible working arrangements including hybrid working, working part time or compressed hours. Designed to support a positive work life balance.

Employees are allocated 10% of their working time for personal and professional development.

A £1k per person learning budget is in place to support all our people, with access to best-in-class conferences and seminars, accreditation with professional bodies, fully funded vocational programmes and e-learning platforms.

Compassionate maternity, adoption, and shared parental leave policies, with up to 26 weeks leave at full pay, 13 weeks with partial pay, and 13 weeks further leave. And maternity support/paternity leave at full pay for 2 weeks, too!

You can find more details of the Benefits we offer here. To help picture your life at MoJ Justice Digital, Data and Science please take a look at our blog.

Key Responsibilities:

As a Senior DevOps engineer, you will:

Technical

Help build and run user-centred, open-source, secure web systems to serve a variety of citizen and government needs

Be responsible for automating the deployment of systems that follow standard patterns, or components of systems that are more complex

Manage infrastructure for multiple environments through code

Build tools to automate infrastructure management tasks

People

Share knowledge of tools and techniques with the wider team and community, both developers and non-developers, and maintain DevOps culture.

Help build and maintain a diverse, inclusive culture across the development community, growing awareness, inclusivity, and balance

Help with hiring, taking part in recruitment of other web operations engineers and technical staff

Participate in the professional development of themselves and support the growth of others

Participate in 2nd line support during office hours, and sometimes out of hours (for which you ll be paid an allowance and further hourly payment when on-call)

If this feels like an exciting challenge, something you are enthusiastic about, and want to join our team please read on and apply!

Person Specification

Essential

Hands-on experience designing, building and operating CI/CD pipelines and delivery automation.

Experience operating production systems on a major public cloud provider (e.g. AWS, Azure or GCP).

Experience managing environments using infrastructure-as-code (or equivalent configuration-as-code) approaches.

Experience using a programming or scripting language such as Go, PHP, Java, Python or JavaScript

Experience of modern development and delivery practices

Experience with data and application security tooling and methodologies (such as STRIDE)

Experience with using containers and minimal operating systems

Experience working openly across disciplines and communicating clearly with technical and non-technical colleagues.

Experience supporting continuous learning through knowledge-sharing, constructive feedback and inclusive ways of working.

A systematic, evidence-led approach to diagnosing and resolving technical problems, weighing options and trade-offs, and iterating improvements based on signals such as logs, metrics, user feedback and incident learnings.

Willingness to be assessed against the requirements for SC clearance.

We welcome the unique contribution diverse applicants bring and do not discriminate based on culture, ethnicity, race, nationality or national origin, age, sex, gender identity or expression, religion or belief, disability status, sexual orientation, educational or social background or any other factor.

Our values are Purpose, Humanity Openness and Together. Find out more [here](#) about how we celebrate diversity and an inclusive culture in our workplace.

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan](#) and the [Civil Service D&I Strategy](#).

Salary Information**

Base salary for this role is London: £63,343 - £70,725 and National: £58,511 - £65,329

New entrants to the Civil Service joining the MoJ are expected to start at the minimum of the pay band.

Existing Civil Servants moving on a level transfer will retain their current base salary or move to the minimum of the pay band for the role, whichever is higher.

Existing Civil Servants who are promoted will either move to the bottom of the new grade's pay band or receive a 10% uplift, whichever provides the greater increase.

Candidates may also be eligible for a non-pensionable Government Digital & Data Allowance of up to £14,882 per year (London) or £14,939 (National). This is a temporary allowance, reviewed annually and may be retained, amended, or withdrawn.

The final offer will reflect the skills and experience you demonstrate during the assessment process.

How to Apply

In Justice Digital, Data and Science, we recruit using a combination of the [Government Digital and Data Profession Capability](#) and [Success Profiles](#) Frameworks. We shall assess a combination of your Experience, Technical skills and Behaviours during the assessment process.

Stage 1 - Application and sift:

To apply for this position, you must submit the following as part of your application:

A CV detailing your career history (including any relevant qualifications). Your CV will be assessed against the essential criteria outlined within the Person Specification of this advert.

A Personal Statement (no more than 750 words) which should outline your experience and skills, giving clear examples of work undertaken. It should specifically address the following 4 criteria listed below:

1. Hands-on experience designing, building and operating CI/CD pipelines and delivery automation.
2. Experience operating production systems on a major public cloud provider (e.g. AWS, Azure or GCP).
3. Experience managing environments using infrastructure-as-code (or equivalent configuration-as-code) approaches.
4. Experience using a programming or scripting language such as Go, PHP, Python or JavaScript

A diverse sift panel will review the information in your CV and Personal Statement to assess the sift criteria specified above. We operate an anonymous shortlisting process. Please ensure your CV and Personal Statement do not include your name or any other identifying details.

Please access the following link for guidance on how to apply - [Application Guidance](#)

Stage 2 - Interviews:

Successful candidates who meet the required standard will then be invited to the 1st-stage, virtual interview, (30 minutes max.) which will include a short whiteboarding technical exercise, which will be completed and presented during the interview.

Successful candidates who pass the first interview will be invited to the final, 2nd-stage interview, a 1.5-hour panel interview held via Microsoft Teams. At

this interview stage, you will be assessed against the following Success Profile elements - Experience, Technical and the following Behaviours:

Communicating and influencing

Developing self and others

Making effective decisions

Delivering at pace

As part of your interview, you will be asked to deliver a presentation that assesses your technical capability. Further details will be provided if successful at sift.

Appointments are made strictly in merit order. In the event that two or more candidates receive identical interview scores, the Communicating and influencing behaviour will be applied as the primary lead criterion to determine the final merit order.

Should you be unsuccessful in the role that you have applied for but demonstrate the capability for a role at a lower level, we reserve the right to discuss this opportunity with you and offer you the position without needing a further application.

A reserve list may be held for up to 12 months, from which further appointments may be made.

Use of Artificial Intelligence

Artificial Intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance](#) for more information on appropriate and inappropriate use.

Terms & Conditions

Please review our Terms and Conditions which set out how we recruit and provide further information related to the role and salary arrangements.

If you have any questions, please feel free to contact digitalanddatarecruitment@justice.gov.uk

Person specification

Please refer to attached Job Description

Benefits

Alongside your salary of £58,511, Ministry of Justice contributes £16,950 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides.](#)

Access to learning and development

A working environment that supports a range of flexible working options to enhance your work life balance

A working culture which encourages inclusion and diversity

A Civil Service pension with an employer contribution of 28.97%

Annual Leave

Public Holidays

Season Ticket Advance

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status

under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).
