About the job

Job summary

The Head of Software Engineering (Principal Developer) will lead the team of Software Engineers, hold the key responsibility for defining and overseeing the software development ethos within the DVSA, as well as for external partners developing software on our behalf.

Their leadership will establish the benchmarks for excellence, ensuring that all software development activities meet best practice modern software development and adhere to the highest standards of security, usability, statutory compliance, performance, and environmental sustainability. The adoption of the highest standards of security, usability, statutory compliance, performance, and environmental sustainability, that meets best practice modern software development standards and drives the overall effectiveness of our digital solutions.

This is a high-impact role as the software development team play a pivotal role on behalf of the organisation in crafting and enhancing the mission-critical applications necessary for our operations, focusing on creating solutions that are secure by design, reliable, and intuitive for our users. As demands evolve, the role holder will be expected to dynamically scale, incorporating contractors or outsourcing, to boost capacity and address specific project requirements efficiently.

Joining our department comes with many benefits, including:

Employer pension contribution of 28.97% of your base salary. Read more about Civil Service Pensions [here](#)

25 days annual leave, increasing by 1 day each year of service (up to a maximum of 30 days annual leave), plus 8 bank holidays a privilege day for the King's birthday

Flexible working options where we encourage a great work-life balance.

Job description

This leadership role requires the post holder to foster the growth of the profession, maintaining a strong focus on user-centred design and alongside this, ensure quality assurance remains a central focus, underpinning the reliability and excellence of all software outputs. They will manage a significant portfolio, refining a comprehensive suite of tools and practices that standardise our software development processes, encouraging innovation and elevating productivity. Through strategic oversight, the role holder will ensure that our software development practices are not only consistent but also adaptable, paving the way for enhanced outcomes and the efficient achievement of the DVSA's digital transformation goals.

Your responsibilities will include, but aren't limited to:

- Demonstrate leadership by providing influence, direction, and guidance to staff to support the delivery of objectives.

- Provide direction for software development across DVSA developing a diverse, inclusive team bringing together in-house and external experts.

- Ensure the team is motivated, skilled, and equipped to tackle complex software development challenges. By setting clear goals, ongoing mentorship, and professional development, to enhance capabilities and drive superior performance.

- Ensure continuous development of the team, keeping up to date with new technologies and methodologies in software development

- Set the strategic direction of software development, including the adoption of new technologies, methodologies, and best practices in software release processes and use of cloud services.

Great line management is important to us as an organisation, and we will equip and support line managers to develop the skills they need. We aim to empower line managers to create teams where people can flourish and deliver excellent outcomes for the public.

For further information on the role, please read the attached role profile. Please note that the role profile is for information purposes only - whilst all elements are relevant to the role, they may not all be assessed during the recruitment process. This job advert will detail exactly what will be assessed during the recruitment process.

Open Sessions: Would you like to find out more about the role, the team and what it's like to work in our department? If so, we are organising an open session where you can virtually 'meet the team' on Thursday 25th June at 16:30-17:00. Sign up [here](#)

Person specification

Required experience:

To be successful in this role you will need to have the following experience:

Strong strategic leadership experience within software development, with the ability to define and implement organisational software development strategies that support the delivery of reliable, secure and user-focused digital services.

Demonstrable experience of having developed and built software at enterprise scale and been in a senior technical position with exposure to the full software development lifecycle.

A strong technical understanding of software delivery practices, tooling and engineering approaches, combined with the ability to guide teams in adopting scalable and sustainable software development.

Proven ability to lead, influence and develop professional capability across teams, fostering a collaborative and quality-focused culture.

Experience of working with senior stakeholders, delivery teams and cross-functional leaders, providing strategic advice and driving continuous improvement in quality practices.

Strong communication, leadership and decision-making skills, with the ability to represent the organisation, provide expert advice and respond effectively to emerging risks, operational challenges and evolving technology landscapes.

Government Digital and Data Allowance

The role is part of the [Government Digital and Data \(or Government Security Profession Career Framework\) profession](#) and utilises an enhanced Capability Based Pay Framework which provides access to a Digital and Data allowance.

The base pay is £69,501. In addition to this the role includes a Digital and Data allowance of up to £28,560.

The value of allowance awarded will be based on an assessment of your skills and experience as demonstrated through the selection process. [Here are more details on the pay framework.](#)

Additional Information

Working hours, office attendance and travel requirements

Full time roles consist of 37 hours per week.

Whilst we welcome applications from those looking to work with us on a part time basis, there is a business requirement for the successful candidate to be able to work at least **30** hours per week.

Frequent travel to other offices will be required, which may involve overnight stays.

This role **is suitable** for hybrid working, which is a non-contractual arrangement where a combination of workplace and home-based working can be accommodated subject to business requirements.

The expectation at present is a minimum of **60%** of your working time a month will be spent at either your designated workplace (one of the locations cited in the advert) or, when required for business reasons, in another office/work location. There may be occasions where you are required to attend above the minimum expectation.

If you have a question about hybrid working, part time/job share hours, flexible working, travelling for work, or require a reasonable adjustment, please contact the Vacancy Holder during the recruitment process to avoid possible

disappointment later in the process should your working arrangements not be compatible with the requirements of the role (see below for contact details).

Please note that we do not hold a UK Visa & Immigration (UKVI) Skilled Worker Licence sponsor and are unable to sponsor any individuals for Skilled Worker Sponsorship. Candidates must ensure they have the appropriate rights to work in the UK before application.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Behaviours, Experience and Technical skills.

How to apply:

Our selection process ensures a comprehensive assessment of each applicant's qualifications, skills, and potential fit within our organisation.

As part of the application process, you will be asked to complete a CV and personal statement. Further details around what this will entail are listed on the application form.

The selection process for this role will be:

Stage 1: Sift of CV and personal statement

Stage 2: Interview & Presentation

You must be successful at each stage to progress to the next stage.

Stage 1: Sift

At sift, you will be assessed against the following Success Profile elements:

Experience you will be asked to provide a CV (unlimited wordcount) and personal statement (1250-word count).

Please provide evidence of your Experience of the following:

Strong strategic leadership experience within software development, with the ability to define and implement organisational software development

strategies that support the delivery of reliable, secure and user-focused digital services.

Demonstrable experience of having developed and built software at enterprise scale and been in a senior technical position with exposure to the full software development lifecycle.

A strong technical understanding of software delivery practices, tooling and engineering approaches, combined with the ability to guide teams in adopting scalable and sustainable software development.

Proven ability to lead, influence and develop professional capability across teams, fostering a collaborative and quality-focused culture.

Strong communication, leadership and decision-making skills, with the ability to represent the organisation, provide expert advice and respond effectively to emerging risks, operational challenges and evolving technology landscapes.

The sift will take place week commencing 6th July 2026.

Stage 2: Interview

At interview stage, you will be assessed against the following Success Profile elements:

Behaviours

Leadership

Managing a Quality Service

Technical :

Development Process Optimisation (Level: Expert)

Modern Development Standards (Level: Expert)

Systems Design (Level: Expert)

User Focus (Level: Practitioner)

You will also be required to create and deliver a presentation to assess the Leadership Behaviour and elements of the required experience. Guidance will be provided if you are invited to interview.

The interviews will take place week commencing Monday 20th July 2026.

This interview will be conducted online via Microsoft Teams or in person at our Bristol office (Berkeley House Croydon Street, Bristol BS5 0DA). Further information will be provided if you are invited for interview.

You can find out more about [our hiring process, how to apply, and application and interview guidance on our careers site \(opens in a new window\)](#).

Please note that we will try to meet the dates set out in the advert. There may be occasions when these dates will change.

Further information on the selection process

Feedback on your application can only be provided if you attend an interview or assessment.

We will also hold a 12 reserve list for this role, which may lead to potential opportunities beyond the role you applied for. You can read more about our reserve lists [here](#).

Should we receive a large number of applications, we may invite a shortlist of the highest performing candidates to interview. This means that some applications that meet the required standard could be placed on hold after the sift and invited to interview if the vacant position(s) remain unfilled. You will be notified if your application is being put on hold once the sift has been completed.

Appointments for this position will be made in order of merit. If you are successful in the selection process but there are no further available posts for the advertised role, you may be contacted to discuss an offer for a lower graded role (with similar experience and responsibility requirements).

If you are unsuccessful in the selection process, your application may be considered for a lower graded position if your demonstrated skills and experience meet the requirements of the alternative position. Candidates will be considered in order of merit.

AI Tools and Platforms

Artificial Intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our for more information on appropriate and inappropriate use

This interview will be conducted online via Microsoft Teams or in person at our Bristol office (Berkeley House Croydon Street, Bristol BS5 0DA) or Nottingham Office (1 Unity Square, Queensbridge Road, Nottingham NG2 1AY), based on locality/preference. Further details will be provided to you should you be selected for interview.

Reasonable Adjustments

As a Disability Confident Leader employer, we are committed to ensuring that the recruitment process is fair, accessible and allows all candidates to perform at their best. If a person with a visible or non-visible disability is substantially disadvantaged, we have a duty to make reasonable changes to our processes.

Complete the Assistance required section in the Additional requirements page of your application form to tell us what changes or help you might need during the recruitment process. For instance, you may need wheelchair access at an interview, or if you're deaf, a Language Service Professional.

If you need a reasonable adjustment so that you can complete your application, you should contact Government Recruitment Service via dftrecruitment.grs@cabinetoffice.gov.uk as soon as possible before the closing date to discuss your needs.

Document Accessibility

This job advert contains links to the [DfT Careers website](#). Our website provides useful guidance and information that can support you during the application process. If you are experiencing accessibility problems with any

attachments on this advert or the information on our website, please contact the email address in the 'Contact point for applicants' section.

Further Information

For more information about how we hire, and for useful tips on submitting your application for this role, visit the [How We Hire](#) page of our DfT Careers website. You can find detailed information about the recruitment process and what to expect when applying for a role.

If your application is successful but you have been dismissed from the Civil Service, your application could be removed at the pre-employment checking stage depending on the nature of the dismissal.

For further information on National Security Vetting please [visit the Demystifying Vetting website](#).

Pre-employment Checking

Applicants who are successful at interview will be, as part of pre-employment screening, subject to a check on the Internal Fraud Database (IFD). This check will provide information about employees who have been dismissed for fraud or dishonesty offences. This check also applies to employees who resign or otherwise leave before being dismissed for fraud or dishonesty had their employment continued. Any applicant's details held on the IFD will be refused employment. A candidate is not eligible to apply for a role within the Civil Service if the application is made within a 5-year period following a dismissal for carrying out internal fraud against government.

All external applicants and current employees of accredited non-departmental public bodies (NDPBs) will be required to undergo a Social Media Check. A Social Media Check is a review of your publicly available online activity, typically across platforms like LinkedIn, Facebook, X (formerly Twitter), Instagram, and others. The purpose is to identify any public posts or content that could raise concerns for employers, such as:

- Hate speech or discriminatory behaviour

- Threats or acts of violence

- Illegal activity or substance misuse

- Sexually explicit material

Extremist views or affiliations

Importantly, this check does not involve hacking into your accounts or accessing private messages. It only considers content you have chosen to make public. Employers use this kind of screening to help ensure their workplace remains safe, inclusive, and aligned with company values. It's not about judging your personality or lifestyle - it's about checking for potential red flags that might affect the role or company culture. If you have questions or concerns about the social media check, we would be happy to explain in more detail what's being looked at and how your data is handled securely and fairly.

Feedback

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

- UK nationals

- nationals of the Republic of Ireland

- nationals of Commonwealth countries who have the right to work in the UK

- nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status

under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

This vacancy is part of the [Great Place to Work for Veterans \(opens in a new window\)](#) initiative.

The Civil Service welcomes applications from people who have recently left prison or have an unspent conviction. [Read more about prison leaver recruitment \(opens in new window\)](#).
