About the job

Job summary

This position is based nationally.

Job description

Senior Analytics Engineer

Location: National

Closing Date: 10/08/2026

Interviews: Rolling from w/c 13th July w/c 31st Aug

Grade: SEO

(MoJ candidates who are on a specialist grade, will be able to retain this grade on lateral transfer)

Salary: National: £42,914 - £46,182 (may include an allowance of up to £9,424) London: £49,325 - £53,081 (may include an allowance of up to £7,440)

Working pattern: full-time, part-time, flexible working

Contract Type: Permanent

Vacancy number: 19453

***We offer a hybrid working model, allowing for a balance between remote work and time spent in your local office. Office locations can be found [ON THIS MAP](#)**

Please note that unless you are an existing member of staff at Justice Digital, Data and Science, the only London location being recruited to is 10 South Colonnade, E14 4PU. We are no longer recruiting to 102 Petty France, SW1H 9AJ.

The Role

Please note this role requires you to pass Security Check clearance. Please click on the link for details.

We're recruiting for a Senior Analytics Engineer here at Justice Digital, Data and Science, to be part of our warm and collaborative Data Modelling and Engineering team.

This role aligns against Senior Analytics Engineer from the Government Digital and Data Framework

This is a great opportunity to work with leading cloud technology and help change the way data is used in the public sector. Analytics engineers at MoJ play a critical role in our mission to put data at the heart of decision-making. We're looking for people with the drive to develop a deep understanding of data needs and data availability across specific areas of the Ministry of Justice. You will work in a team of Analytics Engineers, alongside Data Engineers, to bridge the gap between data producers and data users, developing analytical pipelines and self-service tools to acquire and transform data, making it available on our Analytical Platform

You'll receive a range of excellent benefits when you join our department, including:

A generous employer pension contribution of 28.97% through the Civil Service Pension Scheme.

25 days of annual leave, (increasing to 30 days once you have reached 5 years of service), plus 8 bank holidays and a privilege day for the King's birthday.

Flexible working arrangements including hybrid working, working part time or compressed hours. Designed to support a positive work-life balance.

Employees are allocated **10% of their working time for personal and professional development.**

A £1k per person learning budget is in place to support all our people, with access to best-in-class conferences and seminars, accreditation with professional bodies, fully funded vocational programmes and e-learning platforms.

Compassionate maternity, adoption, and shared parental leave policies, with up to 26 weeks leave at full pay, 13 weeks with partial pay, and 13 weeks further leave. And maternity support/paternity leave at full pay for 2 weeks, too!

You can find more details of the Benefits we offer [here](#). To help picture your life at [MoJ Justice Digital, Data and Science](#) please take a look at our [blog](#).

Key Responsibilities:

As a Senior Analytics Engineer, you will:

Gather requirements from users and translate these into clear deliverables for the Data Engineering and Modelling teams.

Build, test and maintain dimensional data models that enable analysis and reporting, ensuring data dimensions are conformed where possible.

Collaborate with Data Engineers and Data Platform colleagues to prioritise, plan, and deliver solutions that enable better decision making.

Lead on ensuring the completeness, accuracy, and quality of data pipelines and models.

Develop and maintain metadata, documentation, and self-service tools to support data discovery and intelligent use.

Highlight data quality or governance issues and work collaboratively to drive improvements.

Act as a key point of contact for analytical user communities, promoting automation, efficiency and adoption of tools such as dbt and Airflow.

Support others across the organisation to learn, adopt and implement new tools and technologies.

Help to build and foster a culture of continuous learning and technical excellence within the data community.

If this feels like an exciting challenge, something you are enthusiastic about, and want to join our team please read on and apply!

Person Specification

The listed requirements are important for the job, however we do not expect candidates to be an expert in all of them. Please provide as much evidence as you can and make sure you cover how you demonstrated the requirements and the impact of your work, as well as what you did

Essential

We are looking for people with experience in the following:

Using SQL to query and transform data

Dimensional modelling including designing and populating star schemas

Working with large relational databases

Testing and quality assuring data

Building data and analytical pipelines

Willingness to be assessed against the requirements for SC clearance

We welcome the unique contribution diverse applicants bring and do not discriminate based on culture, ethnicity, race, nationality or national origin, age, sex, gender identity or expression, religion or belief, disability status, sexual orientation, educational or social background or any other factor.

Our values are Purpose, Humanity Openness and Together. Find out more here about how we celebrate diversity and an inclusive culture in our workplace.

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the Civil Service People Plan and the Civil Service D&I Strategy.

Salary Information**

Base salary for this role is from £42,914 - £46,182 (National), £49,325 - £53,081 (London)

New entrants to the Civil Service joining the MoJ are expected to start at the minimum of the pay band.

Existing Civil Servants moving on a level transfer will retain their current base salary or move to the minimum of the pay band for the role, whichever is higher.

Existing Civil Servants who are promoted will either move to the bottom of the new grade's pay band or receive a 10% uplift, whichever provides the greater increase.

Candidates may also be eligible for a non-pensionable Government Digital & Data Allowance of up to £9424 per year (National) or £7440 (London). This is a temporary allowance, reviewed annually and may be retained, amended, or withdrawn.

The final offer will reflect the skills and experience you demonstrate during the assessment process.

How to Apply

In Justice Digital, Data and Science, we recruit using a combination of the **Government Digital and Data Profession Capability** and **Success Profiles** Frameworks. We shall assess a combination of your Experience, Technical skills and Behaviours during the assessment process.

Stage 1 - Application and sift:

To apply for this position, you must submit the following as part of your application

Candidates must submit

- an anonymised CV, maximum 2 pages at font size 12, including career history, responsibilities, and achievements.

- A **Personal Statement** (no more than 750 words) which should outline your experience and skills, giving clear examples of work undertaken. It should specifically address the following criteria listed below, using a separate paragraph for each.

- Dimensional modelling including designing and populating star schemas

- Working with large relational databases

- Testing and quality assuring data

- Building data and analytical pipelines

A diverse sift panel will review the information in your CV and Personal Statement to assess the sift criteria specified above. We operate an anonymous shortlisting process. Please ensure your CV and Personal Statement do not include your name or any other identifying details.

Should we receive a high volume of applications, a pre-sift based on Using SQL to query and transform data and dimensional modelling including designing and populating star schemas will be conducted.

Please access the following link for guidance on how to apply - [Application Guidance](#)

Stage 2 - Interviews:

Candidates who meet the required standard will be invited to a 90-minute interview. This will take place via video conference and will include a technical assessment followed by a panel interview.

At interview stage, you will be assessed against the following Success Profile elements - Experience, Technical and the following Behaviours:

- Communicating and Influencing

- Managing a Quality Service

Appointments are made strictly in merit order. In the event that two or more candidates receive identical interview scores, the communicating and influencing behaviour will be applied as the primary lead criterion to determine the final merit order.

Should you be unsuccessful in the role that you have applied for but demonstrate the capability for a role at a lower level, we reserve the right to discuss this opportunity with you and offer you the position without needing a further application.

A reserve list may be held for up to 12 months, from which further appointments may be made.

Selection Process

This recruitment campaign will remain open until the stated closing date. All

applications received by the closing date will be reviewed and assessed. We will be conducting a weekly sift of applications and will invite shortlisted candidates to interview, providing at least 7 days' notice in advance. Following completion of the full assessment process, appointments will be made strictly in merit order.

Use of Artificial Intelligence

Artificial Intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance](#) for more information on appropriate and inappropriate use.

Terms & Conditions

Please review our [Terms and Conditions](#) which set out how we recruit and provide further information related to the role and salary arrangements.

If you have any questions, please feel free to contact digitalanddatarecruitment@justice.gov.uk

Person specification

Please refer to attached Job Description

Benefits

Alongside your salary of £42,914, Ministry of Justice contributes £12,432 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

Access to learning and development

A working environment that supports a range of flexible working options to enhance your work life balance

A working culture which encourages inclusion and diversity

A Civil Service pension with an employer contribution of 28.97%

Annual Leave

Public Holidays

Season Ticket Advance

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new](#)

window).

See our vetting charter (opens in a new window).

People working with government assets must complete baseline personnel security standard (opens in new window) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the European Union Settlement Scheme (EUSS) (opens in a new window)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

Further information on nationality requirements (opens in a new window)

Working for the Civil Service

The Civil Service Code (opens in a new window) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's recruitment principles (opens in a new window).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

The Civil Service welcomes applications from people who have recently left prison or have an unspent conviction. [Read more about prison leaver recruitment \(opens in new window\)](#).
