About Registers of Scotland (RoS)

Join an award-winning organisation recognised for its technology and innovation. Registers of Scotland is a world-leading pioneer in land and property registration. Our full-stack teams design, architect, and build all our registration products in-house. We work to create digital solutions for the people of Scotland. You will get an opportunity to nurture your creativity and develop with us through access to the latest data, software engineering and product delivery techniques.

Our Tech stack

Backend: Java, Python and related frameworks Spring Boot, Flask

Frontend: JavaScript, TypeScript and related frameworks React, Next.js

DevOps: AWS, OpenShift, GitLab CI/CD

Data: PostgreSQL, PostGIS, MongoDB, Informix

The Role

Join our innovative tech team as a Senior Software Developer and help shape the future of RoS! We're looking for a passionate and experienced developer to lead exciting projects, solve complex challenges, and create top-tier software. You'll have the opportunity to work with a talented, collaborative team where your ideas and contributions will truly make a difference. You will work on cutting-edge projects that leverage the latest technologies and methodologies and have clear pathways for career progression and opportunities to take on leadership roles.

Job description

On a typical day you will

- Design, build, and maintain high-quality, scalable software systems

- Lead the development of new features, from concept to production, ensuring quality and performance standards

- Troubleshoot and resolve software defects, ensuring minimal disruption to users

Review and improve code written by team members, fostering a culture of continuous learning

Actively contribute to technical discussions and decisions regarding architecture and design

Collaborate with cross-functional teams including Product, Design, and DevOps to create seamless, impactful software experiences

Stay ahead of industry trends and actively contribute to the improvement of our development practices

Mentor junior developers and help them grow through code reviews, pair programming, and sharing knowledge

Participate in community events, department meetups run by the developers, software developers led communities of practice, and contribute to shared projects

Provide line management for software developers, including regular 1:1s and performance reviews

Set clear objectives and expectations for direct reports

Person specification

Essential Criteria Skills and Attributes for Success

We will assess you against the following **Experience** and **Technical** skills during the application and the assessment process:

Significant experience as a software engineer

Proven ability to take ownership of complex development projects and deliver quality solutions on time

Comfortable working in agile environments, collaborating with diverse teams, and adapting to change

You can demonstrate commitment to producing high-quality, efficient, and maintainable code

You have a curious mindset and are eager to tackle complex problems and find creative solutions

You enjoy collaborating with others, whether it's pairing with teammates or brainstorming with cross-functional groups

Experience of line management, including supporting the professional development of direct reports

Experience in managing performance and resource allocation within a technical team

You value growth, both personally and professionally, and enjoy mentoring others

You want to make an impact; your work directly contributes to the organisation's success and provides a service to the people of Scotland

Technical:

Strong experience with programming languages (Java, Python, TypeScript) and related frameworks (Spring Boot, Flask, React)

Experience with container platforms (Docker, OpenShift)

Proficiency with cloud platforms (AWS, Azure) and modern DevOps tools

Experience with version control tools (GitLab) and building CI/CD pipelines

Familiarity with database technologies (SQL, NoSQL)

Solid understanding of designing and developing RESTful APIs or microservices

Behaviours/Competencies

At assessment stage, you will be assessed against the all Behaviours below:

- Changing and Improving
- Making Effective Decisions
- Managing a Quality Service

Benefits

Alongside your salary of £60,291, Registers of Scotland contributes £17,466 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

This job is for you if you want

- **Work with purpose: working** for the people of Scotland to set the bar for land and property registration worldwide.
- **Flexible and hybrid working:** depending on the role and team requirements, work when and where it's best for you and your stakeholders.
- **Benefits:** enjoy pay progression, pension contributions of up to 28.97%, up to a year's parental leave, and 38 days annual holiday, increasing to 42 days with length of service.
- **Investment in professional development:** we invest in all our people so that they have the right skills to be productive and confident in their job.
- **Diversity and Inclusion:** We are an Investor in People and a Disability Confident employer. We are inclusive, stronger together, and committed to putting our people first.
- **Positive work culture:** RoS is an agile, digital organisation using leading-edge technology. Colleagues understand their role in achieving our strategy and have the autonomy to deliver.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually

accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

Stage one - Application Process

To apply, click on 'Apply now' and complete the online application form. You will need to submit:

1. A CV outlining your career history and how you meet the technical and the general experience criteria (max 4 pages).
2. A Statement of suitability (400 – 500 words in the space provided) based on scenario outline in the application workflow.
3. As part of the application process you will receive an online assessment invitation via Hackerrank and you will have 3 days to complete it.

Please note:

- If we receive a high volume of applications, we may complete an initial sift on Technical/ Experience criteria.
- We reserve the right to invite candidates to participate in a telephone interview prior to being further assessed.
- We reserve the right to invite candidates to participate in a telephone interview prior to being further assessed.
- Applications that are not accompanied by CVs will not be scored or statements over 500 words will not be considered.
- We would strongly recommend that your statement is written in the STAR format (Situation, Task, Action & Result) and suggest preparing your answers using software such as MS Word or Google Docs, and then uploading the file.

- We strongly advise you review our policy on responsible use of AI in the application process. RoS may contact you for a pre-screening call to verify your responses.
- Applications and appointments are subject to a strict merit-based assessment process, in line with the Civil Service Recruitment Principles.

Stage two assessment

If successful at application stage, you will be invited to an in-person interview which will include the following:

- Behaviour based interview
- Technical exercise and case study scenario (no prior preparation required)

Behaviour-based interview questions will be shared with candidates 15 minutes before the assessment begins. This will allow you time to review them and think about the examples you want to use, and how to position them.

You are permitted to bring brief notes from your preparation into the interview to support your responses.

Information on Success Profiles

For further information on success profiles, visit our [Success Profiles](#).

Recruitment timeline

Closing date: 20 August

Online Assessment: 21-23 August

Application sift: Week commencing 24 August

Invites to assessment: Week commencing 31 August

Interviews: Week commencing 7 September (subject to change)

Feedback

Feedback will only be provided if you progress to interview stage.

Reserve List

In the event that further posts are required, a reserve list of successful candidates will be kept for up to 12 months.

Nationality and immigration status

In general, only nationals from the following countries (and associations of countries) are eligible for employment in the Civil Service: the United Kingdom, the Republic of Ireland, and the Commonwealth. EU nationals (with settled or pre-settled status), certain EEA nationals, Swiss and Turkish nationals are also eligible for employment. Detailed provisions on determining eligibility on the grounds of nationality and, where relevant, immigration status can be reviewed [here](#).

Security

Successful candidates must undergo a Basic [Level 1 Disclosure](#) check. Individuals working with government assets must complete [baseline personnel security standard](#) checks.

DDaT supplement

This post is part of the Digital, Data and Technology profession (DDaT) and attracts a pay supplement. This is a tool which RoS uses to benchmark our salaries against current market rates. A review of the benchmark is undertaken every two years, this means that the supplement may go up or down depending on market activity. Advance notice will be given of any changes.

Diversity and inclusion

As a proud member of the Disability Confident Scheme, we welcome applications from disabled candidates. We're not as diverse as we'd like yet, and we're working on it. We especially welcome applications from underrepresented groups – people who are disabled, minoritised ethnic groups, and younger people (16-24 years of age). To learn more, please see our [EDI strategy](#).

As part of the application process, we would like to invite you to please complete our diversity monitoring form. This information is not shared with

recruitment panels but will allow us to further improve our processes to increase diversity.

Reasonable adjustments

We want everyone to have the chance to perform at their best. If you need any adjustments (for example, extra time, a hearing loop, materials in large font) in any part of our recruitment process, please get in touch via [We will](#) discuss adjustments individually with any candidates who request these.

Find out more about reasonable adjustments on [this page](#)

Further information

For further information relating to RoS, including:

- Additional details on pay & benefits
- The Civil Service Code
- Complaints process
- Use of AI in the application/recruitment process,

Please view our [additional information page online](#)

If you have any questions, please contact

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).
