About the job

Job summary

|

It is an exciting time for HM Land Registry (HMLR) as we continue on a major transformation programme. HMLR's ambition is to become the world's leading land registry for speed, simplicity and an open approach to data.

We are seeking experienced software development leaders who can inspire teams, promote best practice, and deliver high-quality digital solutions. Provide technical leadership, support continuous improvement, and work collaboratively across the organisation to help shape technology decisions and drive successful outcomes for our users and services

Job description

As a Lead Software Developer, you will provide technical leadership across software development teams, ensuring the delivery of high-quality, secure and maintainable digital services. You will champion best practice, collaborate with multidisciplinary teams, coach and develop colleagues, and drive continuous improvement in development processes, tools and standards.

The role also offers the opportunity to influence strategic decisions, shape the software development community, and support the organisation's wider digital transformation ambitions.

HMLR expect everyone to spend at least 60% of their working time in the office.

Occasional travel to other HMLR and government offices, including overnight stays where necessary.

For more information about this role and our rewards package, please see attached job description and candidate pack.

Person specification

You will have significant experience in software development, including delivering and supporting complex digital solutions throughout the development lifecycle. With strong technical knowledge and a collaborative approach, you will be able to lead others, champion best practice, and drive the delivery of secure, high-quality software that meets user and business needs.

Benefits

Alongside your salary of £58,500, HM Land Registry contributes £16,947 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

We are working with our recruitment partner (Inspire People) for this campaign.

1. Submit your CV on Inspire People's website
2. Inspire People will assess your CV and compile a longlist of applications.
3. If you progress through this stage, you will need to complete a short, pre-recorded video with Inspire People. Alternatively, you can provide written answers to the questions.
4. HM Land Registry will then sift these applications.

Application

Please make sure your CV outlines how you meet the **Essential Experience** from the job description:

Undergraduate level degree in computer science or related subject OR professional industry experience working in a software development role
