Job description

Job Description: Senior Security Architect

Judicial Digital Services Judicial Office

Contract type: Permanent

Grade: G7

Offers made above this will be made up with a specialist GDD pay allowance.

Location: National/London

Closing date: 19 June 2026

Suitable for: Promotion or level transfer

About Judicial Digital Services (JDS)

Judicial Digital Services is a small, collaborative and friendly team within the Judicial Office, responsible for the development, integration and continuous improvement of digital products that support judges, legal professionals, and the public. The team also works closely with HMCTS and the Ministry of Justice to support cross-organisational digital initiatives and integrations.

With a growing portfolio and a diverse pipeline of work, this is an exciting opportunity to join a digital function at the heart of improving services for the judiciary.

About Judicial Office (JO)

The Judicial Office (JO) reports to, and is accountable, to the Lady Chief Justice (LCJ). It was established in 2006 to provide support to the LCJ and to the wider judiciary in upholding the rule of law and in delivering justice impartially, speedily and efficiently, following the Constitutional Reform Act 2005.

In addition, we support, and are accountable to, the Senior President of Tribunals, whose responsibilities extend to Scotland and Northern Ireland.

The JO is an interesting and unique place to work. Everything we do is in support of upholding the independence and impartiality of the judiciary. We work closely with HM Courts & Tribunals Service (HMCTS), the Ministry of Justice (MoJ) and others across Government as well as with the legal professions.

We are an Arm's Length Body sponsored by the Ministry of Justice. This creates an interesting and complex environment in which to work where we agree our priorities with the senior judiciary and receive our funding to deliver them from the Ministry of Justice. The Judicial Office has been through a period of significant growth resulting from an expansion of our remit and responsibilities.

See JO staff talk about working here: <https://design102.wistia.com/medias/uhtgmbtnlv>

Role

You will have experience of participating in a technical design authority, where business and technology are aligned and you will have a good understanding of architecture development methods and models.

You will have worked within technology for many years but with strong and broad understanding of technical solutions and approached, understanding the business value of technology change is your domain, alongside solid understanding of data, applications and technology.

You will be resilient and comfortable managing stakeholders at a senior level and your discussions will always be shaped by a good understanding of the commercial and operational impact of what we do as an architect.

Key Accountabilities

Own the Technical Vision: Define the 'how' for all strategic change, ensuring solutions align with the long-term enterprise architecture.

Lead Technical Governance: Champion and implement architectural standards, including Secure by Design, across high-impact projects.

Mentor and Guide Teams: Provide technical leadership and guidance to engineering and architecture teams on complex design decisions.

Manage Architectural Risk: Identify and clearly articulate technical debt and architectural risks early in the investment process.

Ensure System Integrity: Verify that new High-Level Designs (HLDs) are scalable, secure, and fit within the broader CCS technology ecosystem.

Drive Strategic Alignment: Collaborate with Business Architecture to translate strategic goals into practical, resilient technical blueprints.

Review Supplier Capability: Assess the technical viability and integration methods of solutions proposed by market suppliers (e.g., for the Self-Serve programme).

Document Architecture: Lead the creation of clear, concise architectural documentation suitable for senior leadership.

Essential Criteria

Enterprise Architecture Governance: Proven experience in defining and enforcing architectural standards (e.g., through an Architecture Review Board or similar forum) to manage technical debt and ensure system integrity.

Secure & Scalable Design: Deep expertise in designing and leading the implementation of highly scalable, resilient, and secure solutions, including applying Secure by Design principles to platforms.

Strategic Technical Alignment: Ability to translate abstract business or policy strategy into concrete, actionable technical blueprints, and effectively articulate risks to senior stakeholders.

Complex Integration & Trade-offs: Demonstrated experience navigating and making complex technical trade-offs (e.g., speed vs. cost vs. quality).

Leadership: Experience in providing technical mentorship and coaching to digital/technical teams.

Experience working across multiple domains or projects, coordinating with third-party suppliers and cross-government teams.

Aptitude for anticipating future technologies and aligning solutions with broader strategies and business outcomes.

Strong grasp of agile methodologies, DevOps principles, and design patterns, paired with enterprise architecture frameworks (e.g., TOGAF).

Ownership of technical roadmaps and strategies, ensuring solutions align with enterprise objectives and evolving user needs.

Experience of an API-first and services-led design approach, with the ability to use business requirements, user stories, data standards, and integration patterns to help to define services and APIs

We do expect candidates for this role to have the knowledge and experience required in our tech stack.

Assessment

Behaviours

Experience As demonstrated in your CV and Statement of Suitability

Technical - As demonstrated in your CV and Statement of Suitability.

Presentation - You will/may be required to prepare a short presentation. Details will be provided when invited to/or on the day of the interview).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Behaviours, Strengths and Experience.

<https://justicejobs.tal.net/vx/candidate/cms/About%20the%20MOJ>

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a basic (or equivalent) criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

This vacancy is part of the [Great Place to Work for Veterans \(opens in a new window\)](#) initiative.
