Key Responsibilities:

Maintain and enhance existing Finance Power BI dashboards and data models.

Develop new reports and visualisations following Power BI best practices.

Build efficient DAX measures and Power Query transformations.

Design scalable data models using STAR schema and strong data modelling principles.

Collaborate with data engineers and business stakeholders to understand requirements and deliver clear, actionable insights.

Ensure data accuracy through validation, reconciliation, governance, and secure access controls (including RLS).

Use advanced Power BI features such as bookmarks, field parameters etc

Manage Power BI Workspaces and Apps, including publishing and permissions.

Work with cloud environments such as Microsoft Fabric, AWS, or similar.

Use SQL for data extraction, validation, or troubleshooting when required.

Produce clear documentation for models, datasets, and report logic.

Experience in Power Apps to maintain and build solutions

If this feels like an exciting challenge, something you are enthusiastic about, and want to join our team please read on and apply!

Person Specification

Essential

Experience designing, developing, and maintaining Power BI dashboards and scalable data models, applying strong data modelling principles and best practices. Including robust DAX measures, Power Query

transformations, and clear documentation for models, datasets, and reporting logic.

Develop and maintain Power Apps solutions to extend reporting capabilities and support business process automation, ensuring effective integration with Power BI, data platform and business workflows.

Experience working with cloud data platforms (Microsoft Fabric & AWS) and utilise SQL for data extraction, validation, and troubleshooting, ensuring effective governance controls and management of Power BI workspaces, apps, and access (including RLS).

Willingness to be assessed against [the requirements](#) for SC clearance.

Selection process details

How to Apply

In Justice Digital, Data and Science, we recruit using a combination of the **Government Digital and Data Profession Capability** and **Success Profiles** Frameworks. We shall assess a combination of your Experience, Technical skills and Behaviours during the assessment process.

Stage 1 - Application and sift:

To apply for this position, you must submit the following as part of your application

A **CV** detailing your career history (including any relevant qualifications). Your CV will be assessed against the essential criteria outlined within the Person Specification of this advert.

A Personal Statement(no more than 750 words) which should outline your experience and skills, giving clear examples of work undertaken. It should specifically address how you fit the criteria below.

- Experience designing, developing, and maintaining Power BI dashboards and scalable data models, applying strong data modelling principles and best practices. Including robust DAX measures, Power Query transformations, and clear documentation for models, datasets, and reporting logic.
- Experience working with cloud data platforms (Microsoft Fabric & AWS) and utilise SQL for data extraction, validation, and troubleshooting, ensuring effective governance controls and management of Power BI workspaces, apps, and access (including RLS).

A diverse sift panel will review the information in your CV and Personal Statement to assess the sift criteria specified above. We operate an anonymous shortlisting process. Please ensure your CV and Personal Statement do not include your name or any other identifying details.

Should we receive a high volume of applications, a pre-sift will be conducted before the sift.

Please access the following link for guidance on how to apply - [Application Guidance](#)

Stage 2 - Interviews:

Successful candidates who meet the required standard will then be invited to a panel interview held via Microsoft Teams. At interview stage, you will be assessed against the following Success Profile elements - Experience, Technical and the following Behaviours:

Communicating and Influencing

Managing a Quality Service

Appointments are made strictly in merit order. In the event that two or more candidates receive identical interview scores, the Managing a Quality service behaviour will be applied as the primary lead criterion to determine the final merit order.

Should you be unsuccessful in the role that you have applied for but demonstrate the capability for a role at a lower level, we reserve the right to discuss this opportunity with you and offer you the position without needing a further application.

A reserve list may be held for up to 12 months, from which further appointments may be made.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.
