Job summary

You must complete and pass the online judgment test before submitting an application. The deadline to complete the assessment is 5:00pm on 17 June 2026.

We are looking for a Digital Learning Developer Apprentice to join our Digital Learning team. This is an exciting opportunity for someone who is creative, curious about technology, and passionate about digital media, learning, or design.

You do not need to be an expert before you start. If you enjoy creating content, exploring digital tools, and learning new skills, we will support and train you to develop into a confident digital learning professional.

Reporting to the Senior Digital Learning Developer, you will help design and develop engaging online learning materials for colleagues across the organisation.

About the apprenticeship

This role is open to graduates who do not hold, and are not working towards, an equivalent or higher qualification in Digital Learning Designer.

Depending on your current qualifications, you will complete the Level 5 Digital Learning Designer apprenticeship. It is a 24-month apprenticeship. The qualification requirements are below:

Throughout your apprenticeship, you will develop valuable skills and knowledge for a wide range of workplace tasks. You will have a dedicated tutor to guide you, with one-to-one sessions every six to eight weeks. You will apply what you learn in real work situations, creating a practical portfolio of tools and techniques you can use on the job.

As part of the apprenticeship, you will complete a **minimum of 6 hours of off-the-job learning each week.**

If you're aged 16-18:

If you haven't passed GCSEs (grade 4/C or above) you'll get support to improve your English and Maths.

This is built into your apprenticeship at no extra cost, and you'll learn at your own pace.

If you're aged 19 or older:

You don't have to do English and Maths to complete your apprenticeship.

If you want to boost your skills or confidence, you can choose to learn them as part of your training.

Please note that we are unable to offer visa sponsorship for this role. Applicants must have the right to work in the UK at the point of application and for the duration of employment.
