About the job

Job summary

Are you an experienced Infrastructure Engineer with in-depth experience across storage back up and cyber recovery?

Do you have the appetite and commitment required to help drive an experienced team of infrastructure engineers?

Have you delivered resilient storage, backup, and cyber recovery solutions?

If so, we'd love to hear from you!

At DVLA, digital services are at the heart of how we deliver for millions of citizens across the UK. Information Technology Services (ITS) provides the critical infrastructure, platforms and support that enable the Agency to deliver secure, reliable and innovative services to customers, partners and colleagues.

As part of the Infrastructure & Operations Services (I&OPS) directorate, the Storage, Backup and Cyber Recovery team are responsible for maintaining and enhancing the infrastructure that stores and protects DVLA's vital data and services. The team manages enterprise storage, backup and cyber recovery solutions, ensuring systems remain resilient, secure and recoverable in the face of evolving threats and operational challenges.

Joining our department comes with many benefits, including:

Employer pension contribution of 28.97% of your salary. Read more about Civil Service Pensions [here](#)

25 days annual leave, increasing by 1 day each year of service (up to a maximum of 30 days annual leave), plus 8 bank holidays and a privilege day for the King's birthday

Flexible working options where we encourage a great work-life balance.

Read more in the Benefits section below!

Job description

As a Lead Infrastructure Engineer, you will be responsible for the day-to-day operational management and support of the DVLA's enterprise storage, backup, and cyber recovery platforms. The position is critical in ensuring business continuity, ransomware recovery readiness, regulatory compliance, and operational excellence across all supported environments.

The Lead Infrastructure Engineering will provide technical leadership across storage, backup, and cyber recovery technologies while leading and developing a small team of Senior Infrastructure Engineers. Reporting directly to the Head of Storage, Backup & Cyber Recovery, the role will drive the delivery, resilience, and continuous improvement of the DVLA's data protection and recovery capabilities.

You will play a key role in shaping the direction of the function through both technical and people leadership and management. You will support the successful implementation of change initiatives, embedding improved processes, efficient ways of working, and robust operational support models that reflect the evolving service.

Your responsibilities will include, but aren't limited to:

- Oversee programmes and projects.

- Work with technical architects to translate the architectural designs into operations and support technical architects in operationalising the designs.

- Lead and direct infrastructure specialist teams in building, managing, supporting and maintaining solutions according to departmental policy (if taking a managerial path).

Great line management is important to us as an organisation, and we will equip and support line managers to develop the skills they need. We aim to empower line managers to create teams where people can flourish and deliver excellent outcomes for the public.

For further information on the role, please read the attached role profile. Please note that the role profile is for information purposes only - whilst all elements are relevant to the role, they may not all be assessed during the recruitment process. This job advert will detail exactly what will be assessed during the recruitment process.

Would you like to find out more about the role, the team and what it's like to work in our department? If so, we are organising an open session where you can virtually 'meet the team' on **04/09/2026** at **12:30 PM**. Sign up [here](#).

Person specification

To be successful in this role you will need to have the following experience:

You will be an experienced and highly motivated technology leader with a strong background in enterprise storage, backup, and cyber recovery solutions.

You will possess extensive hands-on experience across storage, backup, and cyber recovery technologies, with proven expertise in supporting Dell Cyber Recovery Services (CRS), developing Cyber Recovery (CR) runbooks, and planning, executing, and validating backup recovery testing. You will be comfortable operating in a highly resilient, business-critical environment where data protection, cyber resilience, and recovery readiness are key priorities.

As a people leader, you will be responsible for managing and developing a team of Senior Infrastructure Engineers, providing technical direction, mentoring, and support while fostering a culture of collaboration, innovation, and continuous improvement.

This role will be suited to someone who is passionate about storage (Dell Unity, Isilon/PowerScale) and SAN (Cisco MDS), backup (Dell Data Domain, Dell Power Protect Data Manager, IBM Storage Protect), and cyber recovery technologies, (Dell Cyber vault technologies, Immutable storage solutions, Air-gapped recovery environments), and thrives in a fast-paced environment. You will bring an enthusiastic, proactive, and solution-focused approach, coupled with a willingness to lead, share knowledge, and embrace new technologies and ways of working.

You will have excellent communication and stakeholder management skills, with the ability to build strong relationships and influence

stakeholders at all levels across the organisation. Strong analytical, troubleshooting, and problem-solving skills are essential, together with the ability to make sound technical decisions under pressure.

Additional Information

The role is part of the Government Digital and Data (or Government Security Profession Career Framework) profession and utilises an enhanced Capability Based Pay Framework which provides access to a Digital and Data allowance.

The base pay is £57,515. In addition to this the role includes a Digital and Data allowance of up to £24,915.

The value of allowance awarded will be based on an assessment of your skills and experience as demonstrated through the selection process. [Here are more details on the pay framework.](#)

Working for the DVLA Digital Team

At DVLA, licensing is just the start. Every project you implement, touch and deliver has a ripple effect that ll wash across the nation. Here the work you re doing has the capacity to change the way 53 million people interact with our services. As we aim to keep our roads some of the safest in the world, our innovative, transformative digital-led services help optimise a nation of individuals and business every single day.

To see how our people are transforming our digital services, head over to our [DVLA Digital Services Blog](#) and, to understand more about the great opportunities and benefits of working at DVLA read our [Inside DVLA blog](#).

Working hours, office attendance and travel requirements

Full time roles consist of 37 hours per week. Whilst we welcome applications from those looking to work with us on a part time basis, there is a business requirement for the successful candidate to be able to work at least **35** hours per week.

There is an opportunity to work as part an on-call rota, (one week in four) of which a non-pensionable allowance will be paid.

This role **is suitable** for hybrid working, which is a non-contractual arrangement where a combination of workplace and home-based working can be accommodated subject to business requirements.

The expectation at present is a minimum of **60%** of your working time a month will be spent at either your designated workplace (one of the locations cited in the advert) or, when required for business reasons, in another office/ work location. There may be occasions where you are required to attend above the minimum expectation.

If you have a question about hybrid working, part time/job share hours, flexible working, travelling for work, or require a reasonable adjustment, please contact the Vacancy Holder during the recruitment process to avoid possible disappointment later in the process should your working arrangements not be compatible with the requirements of the role (see below for contact details).

Security Check

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is security check. To allow for meaningful checks to be carried out, candidates will be required to have at least 5 years continuous residency in the UK. All applicants for this role must ensure that they meet this minimum residency requirement - if you do not, your application will be withdrawn.

Visa Sponsorship

Please note that we do not hold a UK Visa & Immigration (UKVI) Skilled Worker Licence sponsor and are unable to sponsor any individuals for Skilled Worker Sponsorship. Candidates must ensure they have the appropriate rights to work in the UK before application.

Behaviours

We'll assess you against these behaviours during the selection process:

- Communicating and Influencing

- Leadership

Technical skills

We'll assess you against these technical skills during the selection process:

IT infrastructure (Expert)

Technical understanding (Expert)

Troubleshooting and problem resolution (Expert)

Service focus (Working)

Benefits

Alongside your salary of £57,515, Driver and Vehicle Licensing Agency contributes £16,662 towards you being a member of the Civil Service Defined Benefit Pension scheme. [Find out what benefits a Civil Service Pension provides \(opens in a new window\)](#).

Passionate, reliable and always willing to push yourself and those around you, you'll continue to seek improvement in your own role and challenge us too. Because we pride ourselves on how we approach your development. From training courses to specialist skills workshops and opportunities to grow your expertise, we thrive when you thrive. You can find out more about all of the above [here](#) alongside a full list of our benefits:

Best in class learning and development tailored to your role

An environment with flexible working options where we encourage a great work-life balance

A culture encouraging inclusion and diversity with a range of staff communities to support all our colleagues

Generous employer contribution of 28.9%, depending on chosen [pension scheme](#)

Flexible working options where we encourage a great work-life balance.

Digital communities with clear career frameworks

On-site gym plus personal training available (membership applies)

On-site nursery, restaurants and coffee bar

25 days holiday (plus bank holidays), increasing by 1 each year (up to 30) & 8 Bank Holidays plus an additional Privilege Day to mark the King's birthday.

24-hour Employee Assistance Programme providing free confidential help and advice for staff.

Free parking

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance](#) (opens in a new window) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles](#) (opens in a new window), and will assess your Behaviours, Experience and Technical skills.

How to apply:

Our selection process ensures a comprehensive assessment of each applicant's qualifications, skills, and potential fit within our organisation.

The selection process for this role will be:

Stage 1: Sift of CV and personal statement

Stage 2: Interview

You must be successful at each stage to progress to the next stage.

Stage 1: Sift

At sift, you will be assessed against the following Success Profile elements:

Experience you will be asked to provide a CV (unlimited wordcount) and personal statement (750-word count). Please provide evidence of your Experience of the following essential criteria:

Extensive experience in enterprise storage, backup, and cyber recovery environments.

Proven experience supporting and administering Dell Cyber Recovery Services (CRS).

Experience developing, maintaining, and testing Cyber Recovery runbooks and recovery procedures.

The sift will take place week commencing 08/09/2026.

Should we receive a high volume of quality applications, we may invite a shortlist of the highest scoring candidates to interview. This means that some applications that meet the required standard could be placed on hold after the sift and invited to interview if the vacant position(s) remain unfilled. You will be notified if your application is being put on hold once the sift has been completed. Following interviews, any applicants remaining on hold will be notified by the panel of the next steps regarding their application.

Stage 2: Interview

At interview stage, you will be assessed against the following Success Profile elements:

Behaviours (Communicating and influencing, Leadership)

Technical (IT infrastructure (Expert), Technical understanding (Expert), Troubleshooting and problem resolution (Expert), Service focus (Working))

The interviews will take place week commencing 21/09/2026.

This interview will be conducted at our office (Long View Road, Morriston, Swansea, SA6 7JL). Further details will be provided to you should you be selected for interview

Appointments for this position will be made in order of merit. If you are successful in the selection process but there are no further available posts for the advertised role, you may be contacted to discuss an offer for a lower graded role (with similar experience and responsibility requirements). If you are unsuccessful in the selection process, your application may be considered for a lower graded position if your demonstrated skills and experience meet the requirements of the alternative position. Candidates will be considered in order of merit.

You can find out more about [our hiring process, how to apply, and application and interview guidance on our careers site](#) (opens in a new window).

Please note that we will try to meet the dates set out in the advert. There may be occasions when these dates will change.

Further information on the selection process

Feedback on your application can only be provided if you attend an interview or assessment.

We will also hold a 12-month reserve list for this role, which may lead to potential opportunities beyond the role you applied for.

Pre-employment Checking

If your application is successful but you have been dismissed from the Civil Service, your application could be removed at the pre-employment checking stage depending on the nature of the dismissal.

Applicants who are successful at interview will be, as part of pre-employment screening, subject to a check on the Internal Fraud Database (IFD). This check will provide information about employees who have been dismissed for fraud or dishonesty offences. This check also applies to employees who resign or otherwise leave before being dismissed for fraud or dishonesty had their employment continued. Any applicant's details held on the IFD will be refused employment. A candidate is not eligible to apply for a role within the

Civil Service if the application is made within a 5-year period following a dismissal for carrying out internal fraud against government.

All external applicants and current employees of accredited non-departmental public bodies (NDPBs) will be required to undergo a Social Media Check. A Social Media Check is a review of your publicly available online activity, typically across platforms like LinkedIn, Facebook, X (formerly Twitter), Instagram, and others. The purpose is to identify any public posts or content that could raise concerns for employers, such as:

- Hate speech or discriminatory behaviour

- Threats or acts of violence

- Illegal activity or substance misuse

- Sexually explicit material

- Extremist views or affiliations

Importantly, this check does not involve hacking into your accounts or accessing private messages. It only considers content you have chosen to make public. Employers use this kind of screening to help ensure their workplace remains safe, inclusive, and aligned with company values. It's not about judging your personality or lifestyle - it's about checking for potential red flags that might affect the role or company culture. If you have questions or concerns about the social media check, we would be happy to explain in more detail what's being looked at and how your data is handled securely and fairly.

Reasonable Adjustments

As a Disability Confident Leader employer, we are committed to ensuring that the recruitment process is fair, accessible and allows all candidates to perform at their best. If a person with a visible or non-visible disability is substantially disadvantaged, we have a duty to make reasonable changes to our processes.

Complete the 'Assistance required' section in the 'Additional requirements' page of your application form to tell us what changes or help you might need during the recruitment process. For instance, you may need wheelchair access at an interview, or if you're deaf, a Language Service Professional.

If you need a reasonable adjustment so that you can complete your application, you should contact Government Recruitment Service via dftrecruitment.grs@cabinetoffice.gov.uk as soon as possible before the closing date to discuss your needs.

Document Accessibility

This job advert contains links to the [DfT Careers website](#). Our website provides useful guidance and information that can support you during the application process. If you are experiencing accessibility problems with any attachments on this advert or the information on our website, please contact the email address in the 'Contact point for applicants' section.

Further Information

For more information about how we hire, and for useful tips on submitting your application for this role, visit the [How We Hire](#) page of our DfT Careers website. You can find detailed information about the recruitment process and what to expect when applying for a role.

For further information on National Security Vetting please [visit the Demystifying Vetting website](#).

Feedback

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a basic (or equivalent) criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

This vacancy is part of the [Great Place to Work for Veterans \(opens in a new window\)](#) initiative.

The Civil Service welcomes applications from people who have recently left prison or have an unspent conviction. [Read more about prison leaver recruitment \(opens in new window\)](#).

Once this job has closed, the job advert will no longer be available. You may want to save a copy for your records.
