About the job

Job summary

Senior Dynamics Developer

The IPO is a modern organisation which depends on its IT services to operate and innovate effectively. To provide up to date services to our customers systems need to be developed, improved, and maintained. This position plays a pivotal role in ensuring the core applications are reviewed and continually improved.

You will need the appetite to learn new technologies and methodologies for delivering high-quality IT services. In this role you will work within a multi-disciplined squad using several technologies to build enterprise grade services. You will be expected to be proactive and take accountability for the squad assigned deliveries. The role will also require the investigation, diagnosis and fix of any system issues. A Senior Developer is expected to contribute to the technical strategy for the department.

As a multi-skilled individual specialising in MS Dynamics and Power Apps, you will have the opportunities to develop and mature skills in a core role but

extend this to skills typically aligned to other role types. You will have a high level of input in defining which additional skills you can develop.

Working Style

This role will be carried out in-line with IPO Hybrid working arrangements where staff are currently expected to spend at least 20% of their time working onsite from one of our offices. This role is based in our **Newport Office**.

The requirement for attendance at an office location can vary by role so we would encourage candidates to discuss working arrangements with the recruiting manager to agree a reasonable balance between working from home and the office.

The IPO holds a visa sponsor licence however; this role is not eligible for sponsorship under the Skilled Worker route. Candidates will therefore need to have an existing right to work in the UK at the time of application.

Job description

Main duties consist of but are not limited to:

- Be responsible for the design, coding, configuration, testing and documentation of large, complex or mission critical applications in a cloud first environment using Dynamics and Power Apps in MS Azure
- Configure and customise both model model-driven and canvas apps
- Develop Power Automate Flows via connectors to the Dataverse and other data sources
- Develop PowerApps integrations with other Azure components such as Logic Apps, Azure Service Bus and Azure Functions
- Work closely with test engineers to reach a common understanding of acceptance criteria, the code base and test coverage
- Work collaboratively with IT and stakeholders, share knowledge and expertise with your wider team, aspire to be a role model within the organisation, champion our culture of learning, development, cross-company collaboration and teamwork

Proactively investigate problems and opportunities in existing processes, evaluating and communicating findings and recommendations to stakeholders

Identify and manage defects, incidents, risks and issues in line with IPO standards

Work within a multi-disciplinary team to deliver highly user focused and successful digital services ensuring governance standards are adhered to

Assist in implementing toolkits and APIs for purposes such as integration, performance optimisation, security and scalability

Keeping an open mind and exploring innovative ways to solve problems, working in a fail-fast fashion to provide required functionality

Embrace a continuous improvement ethos

Responsible for ensuring that the team test and build activities follow agreed governance and processes

Proactively apply HMG IA technical security controls according to ISO 27001 & the Security Policy Framework (SPF)

Person specification

Essential Experience

Has been a key player in delivering technical solutions as part of large projects

Experienced with modern delivery models such as Scrum and other Agile methodologies

Advocate of DevOps principles

Experience working in a Microsoft Azure Cloud first team

Experience with Azure DevOps

Essential Technical

Experience of MS Dynamics CRM and PowerApps platform

Has a deep understanding of architectural principals such as SOA and Micro-Services

Technical aptitude

Proficiency in one or more of these languages: C#, Python, JavaScript, Typescript

Experience writing and implementing Unit Testing

How to Apply

Click the **'Apply now'** button and complete the application form by providing the following:

Your CV

Upload an anonymised copy of your current CV. Please remove all identifying markers such as name, title, education institution etc.

Make sure it clearly shows how you meet the essential criteria listed in the Person Specification.

For further information on the sift and interview stages of this recruitment campaign, please head to our 'Things you need to know' section below.

Please visit our Civil Service Careers page - **IPO Recruitment Support , Civil Service Careers (civil-service-careers.gov.uk)**

If you require job-specific information, please contact Alex Morgan
E-mail: Alex.Morgan@ipo.gov.uk
Telephone: 01633814514

Behaviours

We'll assess you against these behaviours during the selection process:

Developing Self and Others

Delivering at Pace

Working Together

Technical skills

We'll assess you against these technical skills during the selection process:

At interview you will be assessed on technical criteria

Benefits

Alongside your salary of £49,247, Intellectual Property Office contributes £14,266 towards you being a member of the Civil Service Defined Benefit Pension scheme. Find out what benefits a Civil Service Pension provides (opens in a new window).

- Unlimited Pluralsight video learning access
- Access to Microsoft s ESI training suite
- Hybrid working with no core hours
- Substantial support for career progression
- 25 days annual leave moving to 30 days in annual increments
- You will also get 8 days public leave and 1 day privilege leave

For more information about what s on offer at the Intellectual Property Office please review our IPO benefit pack attached to the bottom of this advert.

Please note that benefits may be subject to change.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our candidate guidance (opens in a new window) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using Success Profiles (opens in a new window), and will assess your Behaviours, Experience and Technical skills.

Additional details on security and vetting

Successful candidates must pass a **disclosure and barring security check** and if successful you must also hold, or be willing to obtain, a **higher Security Clearance**.

For meaningful checks to be carried out individuals will need to have lived in the UK for a sufficient period of time, depending on the level of clearance, to enable appropriate checks to be carried out and produce a result which provides the required level of assurance. For this role the successful individual will need to have **consistently lived in the UK for a minimum 5 years** in order to meet the relevant security clearance.

Further information on the vetting process can be found at National security vetting: clearance levels - GOV.UK

If you have questions regarding this or are unsure if you meet the eligibility criteria, please contact Recruitment@ipo.gov.uk

The assessment process will comprise of the following:

Stage 1 Sift

An initial sift of applications will be carried out to create a shortlist. This will be based on the evidence provided for the following Success Profile elements:

Experience

Your CV will be used to assess your suitability for the role

Stage 2 Interviews

If successful at sift candidates will then be invited to an interview where you will be assessed on **Experience**

Stage 3 Interviews

If invited to interview **Behaviours and Technical** based questioning will be used

Please note candidates that proceed to the interview stage will be required to deliver a presentation against the Technical Success Profile. Further details will be provided in the invite to interview information.

Specific information regarding the Success Profile elements that will be assessed at interview will be contained within the interview invitation.

Both round of interviews for this role will be carried out virtually via Microsoft Teams (video)

This recruitment campaign will keep a reserve list for 12 months. If you meet the requirements for this role but aren't offered after passing the interview, you'll be placed on the reserve list. If a suitable position opens up during this time, we will reach out to individuals in merit order.

The successful candidate would be expected to remain in the role for a minimum of 12 months before applying for another role.

The Recruitment team operational hours are 09:00 to 17:00 Monday Friday excluding bank holidays.

Please note that the role profile is for information purposes and candidates should refer to the specific assessment criteria referred to in the job advert

Applicants to note:CVs sent direct to the IPO will not be accepted.

There may be important information contained within the job role profile candidates may also wish to refer to. We recommend candidates download and save a copy of the role profile for reference.

This post is being advertised to **Internal**, **across Government** and **external** candidates at the same time.

Incomplete and/or late submissions will not be accepted or considered. Feedback will only be provided if you attend an interview or assessment.

We do not routinely reimburse travel expenses for candidates, however if participating in the selection process would cause you undue financial

hardship or if it restricts your ability to participate, please contact the recruitment team for more information.

In line with Government guidance, successfully appointed candidates will need to provide documents for our Right to Work checks. Information on this will be sent within the invite to interview text.

If you require a reasonable adjustment at any stage of the recruitment process, then please let the recruitment team know via**;**recruitment@ipo.gov.uk

In the event of a high volume of applications, the Intellectual Property Office (IPO) reserves the right to raise the minimum qualifying score at sift to manage volumes and ensure a proportionate and fair assessment process.

Please be aware that only one application per candidate is permitted for each recruitment campaign. Multiple applications, including those made using different accounts, may result in your application being withdrawn or rejected at any stage of the process.

For more information on the IPO s terms and conditions, please review the attached IPO Modernised Terms and Conditions document attached at the bottom of this advert.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a basic (or equivalent) criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is security check (opens in a new window).

See our vetting charter (opens in a new window).

People working with government assets must complete baseline personnel security standard (opens in new window) checks.

Nationality requirements

This job is broadly open to the following groups:

- UK nationals
- nationals of the Republic of Ireland
- nationals of Commonwealth countries who have the right to work in the UK
- nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the European Union Settlement Scheme (EUSS) (opens in a new window)
- nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)
- individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020
- Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

Further information on nationality requirements (opens in a new window)

Working for the Civil Service

The Civil Service Code (opens in a new window) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's recruitment principles (opens in a new window).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the Civil Service People Plan (opens in a new window) and the Civil Service Diversity and Inclusion Strategy (opens in a new window).

Apply and further information

This vacancy is part of the Great Place to Work for Veterans (opens in a new window) initiative.

Once this job has closed, the job advert will no longer be available. You may want to save a copy for your records.
