About the job

Job summary

The Government Digital Service (GDS) is the digital centre of government. We are responsible for setting, leading and delivering the vision for a modern digital government.

Our priorities are to drive a modern digital government, by:

1. joining up public sector services
2. harnessing the power of AI for the public good
3. strengthening and extending our digital and data public infrastructure
4. elevating leadership and investing in talent
5. funding for outcomes and procuring for growth and innovation
6. committing to transparency and driving accountability

We are home to the Incubator for Artificial Intelligence (I.AI), the world-leading GOV.UK and at the forefront of coordinating the UK's geospatial strategy and activity. We lead the Government Digital and Data function and champion the work of digital teams across government.

We're part of the Department for Science, Innovation and Technology (DSIT) and employ more than 1,000 people all over the UK, with hubs in Manchester, London and Bristol.

The Government Digital Service is where talent translates into impact. From your first day, you'll be working with some of the world's most highly-skilled digital professionals, all contributing their knowledge to make change on a national scale.

Join us for rewarding work that makes a difference across the UK. You'll solve some of the nation's highest-priority digital challenges, helping millions of people access services they need

GOV.UK One Login is a top-priority cross-government programme. Our mission is to provide a single, fast, and secure way for people to log in and prove their identity to access any government service. We are replacing over

190 different accounts with one universal solution that is inclusive, accessible, and prevents fraud and enables cross-government fraud detection and intelligence sharing.

We are a multidisciplinary team of product managers, engineers, designers, and analysts. We work in the open, iterate constantly, and put user needs at the heart of everything we do.

Job description

The Government Digital Service is looking for a Lead Business Analyst to join The GOV.UK One Login Programme. The key focus of this role will be supporting the design and evolution of fraud, risk and intelligence capabilities across the OneLogin ecosystem. This includes working across the Programme to support Fraud SMEs to ensure fraud controls, data and operational processes are effectively integrated into product and service design.

As a Lead Business Analyst you ll:

- lead the business analysis for the most complex, risky, cross-cutting and interdependent areas of the One Login ecosystem, particularly in relation to fraud, threat intelligence and risk. You will ensure that pod-level delivery remains aligned to the organisation's strategic context and goals, including fraud prevention, detection and intelligence objectives

- directly lead and mentor a team of Business Analysts. You will own the recruitment, performance management, and career pathways for the profession within your area, ensuring high standards for defining and managing complex business and user needs

- define and evolve operating models, governance processes and service lifecycles for fraud and risk capabilities, ensuring clear pathways from requirement intake through to delivery and operationalisation

- set stakeholder relationship strategy and work closely with fraud, risk, security, data and policy SMEs to translate complex operational and regulatory needs into deliverable product and service requirements

- work closely with test SMEs to ensure test strategies and scenarios reflect real-world operational and fraud use cases, including edge cases and unhappy paths often missed in standard delivery approaches

promote agile methodologies and user-centred design principles at a senior level, helping non-technical stakeholders understand the value of iterative delivery and "failing fast."

Person specification

We're interested in people who:

have experience working in complex risk, fraud, identity or regulated environments as a senior/lead business analyst, and can apply a systems thinking approach to guide options analysis, tactical decision making and influence strategic shifts in the One Login roadmap

have a proven track record of leading the approach to requirements management across multiple high-complexity delivery pods. You can define the standards for how large scale user or business needs are elicited, documented, and traced from high-level Ministerial policy down to technical implementation

have experience of defining or working with business capability models and/or operating models to support prioritisation and strategic decision-making to meet business objectives

are comfortable working with stakeholders in specialist domains (e.g. fraud, risk, security), translating their needs into business and technical requirements, supporting the team to meet those needs

have a strong understanding of testing principles, including recommending the value of testing, developing acceptance criteria for requirement traceability, and reviewing prototypes, test plans, and test outcome reporting

Benefits

There are many benefits of working at GDS, including:

flexible hybrid working with flexi-time and the option to work part-time or condensed hours

a Civil Service Pension with an average employer contribution of 28.97%

25 days of annual leave, increasing by a day each year up to a maximum of 30 days

an extra day off for the King's birthday

an in-year bonus scheme to recognise high performance

career progression and coaching, including a training budget for personal development

a focus on wellbeing with access to an employee assistance programme

job satisfaction from making government services easier to use and more inclusive for people across the UK

advances on pay, including for travel season tickets

death in service benefits

cycle to work scheme and facilities

access to an employee discounts scheme

10 learning days per year

volunteering opportunities (5 special leave days per year)

access to a suite of learning activities through Civil Service learning

Any move to Government Digital Service from another employer will mean you can no longer access childcare vouchers. This includes moves between government departments. You may however be eligible for other government schemes, including Tax Free Childcare. Determine your eligibility at <https://www.childcarechoices.gov.uk>

Office attendance

The Department operates a discretionary hybrid working policy, which provides for a combination of working hours from your place of work and from your home in the UK. The current expectation for staff is to attend the office or non-home based location for 40-60% of the time over the accounting period.

DSIT does not normally offer full home working (i.e. working at home); but we do offer a variety of flexible working options (including occasionally working from home).

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

The standard selection process for roles at GDS consists of:

- a simple application screening process - We only ask for a CV and cover letter of up to 750 words. Important tip - please ensure that your cover letter includes how you meet the skills and experience listed in the person specification section above
- a 45 minute technical assessment conducted via Google Meet
- a 60 minute video interview

Depending on how many applications we get, there might also be an extra stage before the video interview, for example a phone interview or a technical exercise.

In the event we receive a high volume of applications, we will conduct the initial sift against the lead criteria which is:

- have experience working in complex risk, fraud, identity or regulated environments as a senior/lead business analyst, and can apply a systems thinking approach to guide options analysis, tactical decision making and influence strategic shifts in the One Login roadmap

In the Civil Service, we use [Success Profiles](#) to evaluate your skills and ability. This gives us the best possible chance of finding the right person for the job, increases performance and improves diversity and inclusivity. We'll be

assessing your technical abilities, skills, experience and behaviours that are relevant to this role.

For this role we ll be assessing you against the following [Civil Service Behaviours](#):

- changing and improving
- making effective decisions
- leadership
- seeing the bigger picture
- communicating and influencing

We ll also be assessing your experience and specialist technical skills against the following skills defined in the Government Digital and Data Capability Framework for the Lead Business Analyst role:

- agile working
- business analysis
- business process improvement
- business process testing
- methods and tools
- requirements definition and management

Recruitment Timeline

Sift completion: week commencing Monday 8th June 2026

Technical assessments: week commencing Monday 22nd June 2026

Panel interviews: starting week commencing Monday 29th June 2026

Candidates that do not pass the interview but have demonstrated an acceptable standard may be considered for similar roles at a lower grade.

A reserve list will be held for a period of 12 months, from which further appointments can be made.

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan](#) and [the Civil Service D&I Strategy](#).

Please note that this role requires SC clearance, which would normally need 5 years UK residency in the past 5 years. This is not an absolute requirement, but supplementary checks may be needed where individuals have not lived in the UK for that period. This may mean your security clearance (and therefore your appointment) will take longer or, in some cases, not be possible.

For meaningful checks to be carried out, you will need to have lived in the UK for a sufficient period of time, to enable appropriate checks to be carried out and produce a result which provides the required level of assurance. Whilst a lack of UK residency in itself is not necessarily a bar to a security clearance, and expectation of UK residency may range from 3 to 5 years. Failure to meet the residency requirements needed for the role may result in the withdrawal of provisional jobs offers.

Sponsorship

DSIT cannot offer Visa sponsorship to candidates through this campaign. DSIT holds a Visa sponsorship licence but this can only be used for certain roles and this campaign does not qualify.

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

This vacancy is part of the [Great Place to Work for Veterans \(opens in a new window\)](#) initiative.

The Civil Service welcomes applications from people who have recently left prison or have an unspent conviction. [Read more about prison leaver recruitment \(opens in new window\)](#).
