About the job

Job summary

We are looking for people who are passionate about Engineering to join our community led team in Shared Applications Service (SAS). You will work in agile multidisciplinary teams with over 200 engineers in a modern cloud environment using the latest technologies. Our purpose as a team is to bring technical understanding in-house for over 600 Home Office applications.

Where business needs allow, some roles may be suitable for a combination of office and home-based working. Where this is the case, employees will be expected to spend a minimum of **60% of their working time in the office**. Applicants can raise any queries to the email address at the bottom of the advert.

Watch this short video to hear from members of Home Office Digital talking about the projects they work on and their experience of working here: [Working for Home Office Digital](#).

Job description

The Developer works on software components that form part of a product. You will be involved in designing, running and improving software that meets user needs. You will typically work under the guidance of senior colleagues in your team. You will work to our technical standards writing clean, secure code following a test-driven approach, ensuring the code is open as far as possible and can be re-used.

Tools and Technologies we use:

We are keen for Engineers to continue learning new technologies, we have a large range in the Home Office including:

Backend: Node.js, Python

Frontend: React, JavaScript, Typescript,

Data: Elasticsearch, MongoDB, Neo4j

DevOps: AWS, Kubernetes, Docker

AI: Github Copilot

Person specification

Working Pattern

This role is available on a full-time basis with the option of compressed hours working. This role is also suitable for part-time working hours, with a minimum requirement to work 3 days per week due to business requirements.

Main responsibilities

Your main day to day responsibilities will be:

Delivering secure, reliable and scalable software in your team; undertaking a breadth of development tasks.

Designing new software using appropriate tools and in line with standards, proving designs through prototyping.

Reporting on system performance and supporting test activities; keeping documentation up to date.

Supporting services you have delivered through regular maintenance activities, balancing your work with your leadership.

Working with other engineers to deliver new capability, for instance improved CI/CD pipelines or test approaches.

All our engineers will be expected to embody an open and positive approach, supporting the Home Office in:

Progressing the Home Office Government Digital and Data Profession, understanding all roles and helping to build our community.

Working and assessing to appropriate standards: for instance, accessibility, the GDS service standard and our own community practices.

Improving our skills and approaches as well as keeping up to speed with the technology landscape

Essential skills

You ll have a demonstrable passion for software development, with the following skills or **proven experience** in:

Developing scalable, maintainable code using modern programming languages and frameworks (PROG)

Applying software design principles and patterns to deliver robust solutions (SWDN)

Testing software using unit, integration, and/or BDD/TDD practices to ensure quality and reliability (TEST)

Troubleshooting and debugging issues across development and production environments (ASUP)

Using version control systems (e.g. Git) and CI/CD pipelines to manage and deliver code efficiently (SINT)

Managing and manipulating data effectively within applications and data stores (DATM)

SFIA capability framework

Skills for the Information Age (SFIA) is the technical framework that sets the standard capability and development of all levels in the Home Office. This is a link to the capability framework: [All skills A - Z English \(sfia-online.org\)](https://sfia-online.org).

We use set SFIA technical skills to form our interview questions and we will assess you against these technical skills during the selection process.

The essential skills listed above are reflective of the Home Office Government Digital and Data Profession Career Framework (based on the industry standard SFIA framework). Use the SFIA levels of responsibility to understand what would be expected for each technical skills listed below.

Technical skills

We'll assess you against these technical skills during the selection process:

Software design (SWDN) - Level 3

Programming/software Development (PROG) - Level 3

Testing (TEST) - Level 3

Systems integration and build (SINT) - Level 3

Data management (DATM) - Level 3

Application support (ASUP) - Level 3

Benefits

Alongside your salary of £47,200, Home Office contributes £13,673 towards you being a member of the Civil Service Defined Benefit Pension scheme. Find out what benefits a Civil Service Pension provides.

Why work for us...

Find out more information at: benefits - Home Office careers, but some of the primary ones are:

A competitive starting salary.

A civil service pension with employer contribution rates of at least 28.97%.

In-year reward scheme for one-off or sustained exceptional personal or team achievements.

The ability to potentially adopt flexible working options that suit your work/life balance, plus the opportunity in future to take a career break.

25 days annual leave on appointment, rising with service.

Eight days public holidays, plus one additional privilege day.

26 weeks maternity, adoption or shared parental leave at full pay, followed by 13 weeks statutory pay and a further 13 weeks unpaid, after qualifying service.

Maternity and adoption support leave (also known as paternity leave) of two weeks full pay, after qualifying service.

Paid leave for fostering approval processes, support when a child is substantively placed with you plus a foster to adopt policy.

Support for guardians and kinship carers.

Corporate membership of Employers for Carers providing additional information and advice for carers, plus a Carer's Passport to discuss workplace needs and underpin supportive conversations.

Time off to deal with emergencies and certain other unplanned special circumstances.

Things you need to know

Artificial intelligence

Artificial intelligence can be a useful tool to support your application, however, all examples and statements provided must be truthful, factually accurate and taken directly from your own experience. Where plagiarism has been identified (presenting the ideas and experiences of others, or generated by artificial intelligence, as your own) applications may be withdrawn and internal candidates may be subject to disciplinary action. Please see our [candidate guidance \(opens in a new window\)](#) for more information on appropriate and inappropriate use.

Selection process details

This vacancy is using [Success Profiles \(opens in a new window\)](#), and will assess your Experience and Technical skills.

As part of the application process, you will be asked to complete a CV and **1000**-word personal statement:

1. CV include a brief employment history outlining for each role, the organisation, job title, dates in post, and key responsibilities and achievements. Any recent employment gaps should be explained. A second section should set out the skills and experience most relevant to this role, drawing on your career, training, and other relevant activities without repeating the employment history. Focus on the evidence that best demonstrates your capability to meet the role requirements.
2. Personal statement - this should present a clear and coherent narrative explaining why you are applying, what you would bring to the role, and how your experience meets the essential criteria. Use well-chosen examples to illustrate your impact, drawing on [STAR](#)-style thinking where helpful, but ensure the statement reads as a single, flowing document rather than a set of isolated responses.

To ensure you are assessed on merit alone, we ask you to anonymise your application. This means removing personal identifiers such as your name, age, and place of education. You do not need to remove your employment history, job titles, or any information about your work.

Watch our three short videos on how to apply for our roles: [Applying - Home Office Careers](#).

Problems during the application process

If you experience problems accessing this advert, or you think you've made a mistake on an initial application, please contact hocandidates.grs@cabinetoffice.gov.uk, including the vacancy reference, at least two working days before the vacancy closes. Further information can be found [on our website](#).

Do not create or attempt to submit another application, online test or use a different Civil Service Jobs account to proceed as this would be in violation of the candidate declaration.

Sift Stage

The sift will be held on the **CV and Personal Statement**.

Please read the essential skills for this position carefully. We will only consider those who meet the listed requirements.

In the event of a high number of applications received, an initial sift may be held on the **Personal Statement**.

Interview Stage

Candidates reaching the required standard will then be invited to attend an interview. The interview will assess your **Technical Skills (SFIA Framework)** using **technical based** questions.

At the beginning of the interview, you will be assessed on your technical capability through a technical problem-solving exercise. We will provide you with the information in the interview and you will be asked to share your screen with the panel, so you can point out various aspects.

If you are invited to an interview, you will be required to bring a range of documentation for the purposes of establishing identity and to aid any pre-employment checks. Please see the attached list of Home Office acceptable ID documents.

Sift and Interview dates

The sift will commence from **18/06/2026**.

Interviews are expected to take place from **08/07/2026**. (Subject to the Panel's operational requirements/priorities).

Interviews will be conducted remotely via MS Teams.

We will try to meet the dates set out in the advert. There may be occasions when these dates will change. You will be provided with sufficient notice of the confirmed dates.

Further information

If you have previously made an unsuccessful application for a role with the same essential skills and are not able to demonstrate how you have developed these skills since your last application, please reconsider applying as your application is unlikely to be successful.

In order to process applications without delay, we will be sending a Criminal Record Check to Disclosure and Barring Service on your behalf. However, we recognise in exceptional circumstances some candidates will want to send their completed forms directly. If you are doing this, please advise Government Recruitment Service of your intention by emailing Pre-EmploymentChecks.grs@cabinetoffice.gov.uk stating the job reference number in the subject heading.

Reserve List

A reserve list of successful candidates will be kept for 12 months. Should another role become available within that period you may be offered this position.

Reserve lists may be held for each location. Candidates will be appointed in merit order by location where this applies.

Similar Roles

Job offers to this post are made based on merit. We often have **similar roles** available at different grades. If a candidate is suitable for a similar role or a lower grade than they have applied for, we may offer the candidate that role without the need to go through a further selection process providing the role has the same competencies and essential skills.

UK residency and security requirements

For meaningful security checks to be carried out, individuals need to have lived in the UK for a sufficient period of time. Learn more on our website. [Security Checks - Home Office Careers](#).

Please note that this role requires Security Check (SC) clearance, which would normally need 5 years UK residency in the past 5 years.

However, in exceptional circumstances security clearance applications for candidates who have been present in the UK for at least 3 of the last 5 years may be considered. Failure to meet this residency requirement will result in your security clearance application being rejected.

For further information on National Security Vetting please visit the following page [Demystifying Vetting - GOV.UK](#).

Visa Sponsorship

We are unable to sponsor any individuals via Skilled Worker Sponsorship / Tier 2 (General) work visas as we do not hold a UK Visa & Immigration (UKVI) Skilled Worker License.

Capability allowance

The advertised role is part of the Home Office Government Digital and Data Profession. This role has access to a digital capability-based allowance. Applicants who are successful at interview will be invited to complete a Capability and Skills Assessment post-interview. Any allowance awarded will be based on the assessment of your capability against the six skills advertised for this role. Please see the [Home Office Pay Framework Allowance Careers](#) page for more information.

The allowance values are set by the Home Office, subject to remaining in a qualifying role. This allowance is non-contractual, subject to an annual review and could be withdrawn at any time.

For both new entrants and existing civil servants, the total compensation offer is a combination of base salary and, if applicable, a capability-based allowance. The pay ranges for this role are National: £47,200 - £50,200 and London: £51,200 - £54,200. New entrants to the Civil Service will start on the pay range minimum. For existing civil servants, our policies on [level transfer](#) and [promotion](#) will apply.

Reasonable Adjustments

If a person with disabilities is at a substantial disadvantage compared to a non-disabled person, we have a duty to make reasonable changes to our processes.

If you need a change to be made so that you can make your application, you should:

Contact Government Recruitment Service
via HORECRUITMENT.GRS@CABINETOFFICE.GOV.UK as soon as possible before the closing date to discuss your needs.

Complete the Assistance Required section in the Additional Requirements page of your application form to tell us what changes or help you might need further on in the recruitment process. For instance, you may need wheelchair access at interview, or if you are deaf, a language service professional.

If you are experiencing accessibility problems with any attachments on this advert, please contact the email address in the Contact point for applicants section.

Feedback

Feedback will only be provided if you attend an interview or assessment.

Security

Successful candidates must undergo a criminal record check.

Successful candidates must meet the security requirements before they can be appointed. The level of security needed is [security check \(opens in a new window\)](#).

[See our vetting charter \(opens in a new window\)](#).

People working with government assets must complete [baseline personnel security standard \(opens in new window\)](#) checks.

Nationality requirements

This job is broadly open to the following groups:

UK nationals

nationals of the Republic of Ireland

nationals of Commonwealth countries who have the right to work in the UK

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities with settled or pre-settled status under the [European Union Settlement Scheme \(EUSS\) \(opens in a new window\)](#)

nationals of the EU, Switzerland, Norway, Iceland or Liechtenstein and family members of those nationalities who have made a valid application for settled or pre-settled status under the European Union Settlement Scheme (EUSS)

individuals with limited leave to remain or indefinite leave to remain who were eligible to apply for EUSS on or before 31 December 2020

Turkish nationals, and certain family members of Turkish nationals, who have accrued the right to work in the Civil Service

[Further information on nationality requirements \(opens in a new window\)](#)

Working for the Civil Service

The [Civil Service Code \(opens in a new window\)](#) sets out the standards of behaviour expected of civil servants.

We recruit by merit on the basis of fair and open competition, as outlined in the Civil Service Commission's [recruitment principles \(opens in a new window\)](#).

The Civil Service embraces diversity and promotes equal opportunities. As such, we run a Disability Confident Scheme (DCS) for candidates with disabilities who meet the minimum selection criteria.

The Civil Service also offers a Redeployment Interview Scheme to civil servants who are at risk of redundancy, and who meet the minimum requirements for the advertised vacancy.

Diversity and Inclusion

The Civil Service is committed to attract, retain and invest in talent wherever it is found. To learn more please see the [Civil Service People Plan \(opens in a new window\)](#) and the [Civil Service Diversity and Inclusion Strategy \(opens in a new window\)](#).

Apply and further information

This vacancy is part of the [Great Place to Work for Veterans \(opens in a new window\)](#) initiative.

Once this job has closed, the job advert will no longer be available. You may want to save a copy for your records.
